Resolution

To Better My Business
To Insure My Future
To Remain Financially Sound
I MUST OBTAIN A MORE EQUITABLE SHARE OF MY COLLECTIONS

By Bill Gersh

There is no longer any doubt in the mind of anyone connected with the coin machine industry in any fashion whatsoever that the answer to a great many present problems is for the operator to obtain a more equitable share of the gross collections from each machine he has on location.

For five years now **The Cash Box** has urged operators to adopt a better commission basis. Those operators who have already done so find themselves in a more financially sound position and are, therefore, able to continue on successfully.

But, those operators who have gone along on the theory that everything would eventually right itself, regardless of the 50%—50% commission basis on which they are operating, have found it impossible to meet their overhead expense and to continue amortizing the new equipment which they have purchased within a reasonable period of time as well as continue to buy new machines at the competitive pace required today.

The operator must make up his mind that his general overhead expense; the cost of equipment including such other surrounding factors as wages, cost of supplies, parts, rent, etc., will continue at present high levels and perhaps even go higher before this year is over. With such conditions confronting him, he simply must change his present operating method or he will find it impossible to continue on in this business on a profitable basis.

The answer to the problem facing the greater majority of the operators thruout the nation is to change their present inequitable percentage of the gross intake from 50%—50% to 75%—25%. In this fashion they will, at least, have come to a more equitable division of the gross income from their equipment. And, only by such method, will they be assured of profitable continuance in this industry.

This is an imperative requirement for the music as well as the music amusement machine operator. Many noted amusement machine distributors are today advising that they are spending more time collecting bills than they do selling equipment. There is simply no reason for this. The public are playing more music than ever before in American history and also enjoying amusement devices to a much greater extent. The operator is enriching the location owner — but not himself.

He is continuing along with ancient and outmoded operating methods in an age when all businessmen have efficiently streamlined and highly modernized all business systems. The operator, too, must streamline and modernize his operating methods to meet present conditions if he desires to continue on a sound and progressive basis.

The answer is in the figures which have been presented by The Cash Box time and time again. From a $20 gross take, (and this is figuring exceptionally high as an average) the location owner receives $10 (on the present 50%—50% commission basis) and has very little expense to remove from that $10; for example, the rental he would charge for the small space occupied by a juke box or a game and the few pennies worth of electric current used. But from the $10 gross which the operator receives, he can immediately deduct 50% as operational overhead and the result is that he is now down to $5 net, from which must come amortization of his machine and his general profit. On the basis of $5 per week, without deducting any further expenses, it is extremely difficult for the operator to amortize present juke boxes and amusement machines and, at the same time, earn any profit on his investment.

But, on the basis of retaining 75% of the gross intake from the machine, the operator receives $15 and can continue on profitably in this business. In short, as operator after operator has explained, on a gross average of $20 per machine (including amusement and music machines on the route) the operator working on 75%—25% basis averages $10 net to himself for each machine. This can keep him in business and can make possible the successful and profitable operation of his equipment. In the present three to four months run of a pinball machine, the trade-in valuation brings additional profit to the operation, after the intake is deducted. The same is true of any good juke box. The juke box operator with a $10 per week net can see daylight and amortize in approximately 18 months, especially when depreciation is deducted and eventual trade-in figured.

The Cash Box has also urged operators who do not believe that they can obtain a 75%25% commission basis to at least get $10 front money per machine.

There are so many peculiarities in each territory that the operator must decide his commission basis arrangements for himself. In the case of "mixed routes", the operator is faced with an entirely different problem. Then again, some location owners have their own individual whims and fancies which must be catered to by the operator, so that his commission basis might be different in almost each and every individual case.

Regardless of what individual differences and difficulties and peculiarities do exist — the only answer to continued profitable operating today — is for the operator to obtain a more equitable share of the gross intake from his machines — if he desires to remain in a profitable and successful business — and not be known as "machine poor", as were many operators prior to this past war.

In fact, the entire paralysis which enveloped the automatic music field would never have come about were there a better commission basis in existence on a national scale. This must be the first resolve of every operator in the nation who hasn't, as yet, taken advantage of more modern and more streamlined business methods to insure himself a healthy and prosperous as well as a progressive future.

To be successful today — every operator must adopt the resolution heading this editorial — and do so immediately!

MUSIC OPS SURPRISE WITH BIG ACCLAIM FOR NAT'L PROTECTIVE ASSN PLAN

"The Cash Box" Amazed at Number of Replies Received Endorsing a "National Automatic Music Protective Association." Propose Names of Noted Automatic Music Men to Lead Organization. Interest in This Plan Because of Scott and Fellows Bills Greater Than in Any Other Ever Presented.

Here are Some of the Automatic Music Leaders Already Proposed to Serve on a "National Automatic Music Protective Association"

George A. Miller	David C. Rockola	Edward Smith
Albert S. Denver	J. A. Weinand	T. W. Thomas
Sidney H. Levine	George Skinas	John J. Mulligan
N. Marshall Seeburg	I. B. Ackerman	Leo Weinberger
C. T. McKelvy	Sol L. Kesselman	Gordon Sutton
Wm. H. Rosenfeld	Homer E. Capehart	Bert Lane
Jack Cohen	Wm. L. Krieg	Barnet B. Sugerman
Lee S. Rubinow	Col. R.E.L. Choate	Frank Engel
M. G. Hammergren	R. R. Greenbaum	Jack R. Moore
Carl T. Johnson	Chas. W. Schlicht	S. H. Lynch
E. Jay Bullock	V. G. Wahlberg	C. S. Pierce
Drake Cunfield	Thomas J. Callaghan	Don W. Clark
Wm. L. King	John Haddock	Nat Cohn
Jack Shephard	Morris Goldman	Chas. Cade

NEW YORK—From the very first day that this pasl week's issue of *The Cash Box* appeared in the trade, phone calls continued to swamp the offices of *The Cash Box* suggesting names of juke box leaders lo serve on a "National Automatic Music Protective Association."

The idea for such an organization was proposed in Washington by some of the juke box leaders who were in constant attendance at the seven public hearings on the Scott (H.R.1269 and H.R.1270) and the Fellows (H.R. 2570) Bills.

These men, meeting evenings prior to the public hearings before a Sub-Committee of the Committee On The Judiciary, felt that the juke box industry, just as the opponents of the automatic music business, the music industries, should also have a "National Automatic Music Protective Association" to protect this industry in further national legislative cases.

There is no doubt that interest in the Scott and Fellows Bills hearings must have been unusually great thruout the entire juke box industry to elicit such tremendous response. It can safely be stated that there has been more interest shown in the plan for a "National Automatic Music Protective Association" than in any other ever yet presented to the juke box business.

The fact that name after name, prominent in the industry, was mentioned to serve on an organization of this kind, is also proof in itself of the great interest in the trade to be completely prepared for any further eventualities of like nature, as the Scotl and Fellows Bills. (And there is no doubt, as all coinmen who were present in Washington already know, that ASCAP, NAPA, NMC, SPA, and all the other music organizations will continue to fight year after year in an effort to make a grab from juke box income.)

The creation of such a non-profit organization, to meet only in times of national emergencies, is therefore of great interest to all the juke box field. It would take much worry from the mind of the average juke box operator to feel that the noted leaders of his trade are always prepared to battle whatever national problems with which he may be faced.

The names which have already been proposed are among the most outstanding leaders in the nation's juke box business. There are a great many others who also have established outstanding leadership in the field. These should be included with this first list which has been gathered together from the names proposed by all who have shown such an amazing interest in an organization of protective character.

Every outstanding manufacturer has been included in the list. N. Marshall Seeburg and C. T. McKelvy of the J. P. Seeburg Corp.; Carl T. Johnson and M. G. Hammergren of The Rudolph Wurlitzer Co.; David C. Rockola and J. A. Weinand of Rock-Ola Mfg. Corp.; Homer E. Capehart and Wm. L. Krieg of Packard Mfg. Corp.; R. R. Greenbaum of Aireon Mfg. Corp.; Chas. W. Schlicht and V. G. Wahlberg of Mills Industries, Inc.; Thomas J. Callaghan of Bally Mfg. Co.; John Haddock of A.M.I., Inc.

Wm. H. Rosenfeld, attorney for Ohio's music ops; Jaek Cohen, president of Cleveland's music merchants; George A. Miller, president of California's music ops; George Skinas, state president of Michigan's musie men; I. B. Aekerman, attorney for Michigan's ops; Sol. L. Kesselman, attorney for New Jersey's ops; Albert S. Denver, president of New York's music owners; Sidney H. Levine, attorney for New York's ops; E. Jay Bullock, direetor of Southern California's music ops; Drake Cunfield, president of Illinois' music operators; Col. R. E. L. Choate, director for Alabama's music ops; Wm. L. King and Jack Shephard, president and vice-president of Eastern Pennsylvania's musie men; Morris Goldman, president of Detroit's musie owners.

Lee S. Rubinow, former noted leader of New York's ops and now Seeburg distrib of Miami; Edward Smith, Wurlitzer distributor of New York; Terry W. Thomas of Western Pennsylvania music ops and a Cleveland distrib; John J. Mulligan, president of Western Pa. music ops and Aireon distrib of Pittsburgh; Leo Weinberger, Seeburg distrib of Louisville; Gordon Sutton, Wurlitzer distrib of Chicago; Barnet B. Sugerman, A.M.I. distrib. of New York; Bert Lane, Seeburg distrib of New York; Frank Engel, Seeburg distrib of Philadelphia; Jack R. Moore, Seeburg distrib. of Portland; S. H. Lynch, Seeburg distrib of Dallas; C. S. Pierce, president of Wisconsin's ops and Packard distrib; Don W. Clark, Wurlitzer distrib of San Francisco; Chas. Cade, Packard distrib of Philadelphia.

In short, every name so far mentioned, is among the leaders of the trade and men who have had a great deal of experience in the automatic music industry. Some of the distributors mentioned were, and still are, leaders of organizations in their territories. Others have proven themselves extremely active in combating inequitable taxation and other legislation against the music machine industry. There is no doubt that the list of men already presented in telephone conversations to *The Cash Box*, is among the finest which can be chosen.

But, this is only a beginning. It proves the need for a strong body of men to act as a nucleus for the entire automatic music industry and to protect the members of this industry from any further attempts upon their income at a time when they are attempting to adjust themselves to a new operating era.

No automatic music operator can afford to have obstacles of the nature attempted by organizations like ASCAP (American Society of Composers, Authors and Publishers) and NAPA (National Association of Performing Artists) thrown in his path. He could not withstand the pressure which would be brought to bear on each and everyone of his locations. And, as all the automatic music men know, it would simply irritate the location owners to the point where they just wouldn't want anything further to do with automatie musie.

There is, definitely, a great need for an automatic musie protective organization. Such an association would prove of extreme value in times of stress. As yet no one knows what the future holds, even should the Scott and Fellows Bills be buried in the Committee On The Judiciary during this session of the Congress.

Next year may see further bills of this kind before a new and entirely different Sub-Committee who may have various other ideas regarding what's what as far as automatie music's "performance for profit" is concerned.

The trade must be prepared. Only its leaders can help it during times of national emergency. Only its leaders can afford to be present and meet with the various legal counsels who will represent the industry and also from among its own members choose the required speakers it will nead to appear before such committees.

Many astonishing and even shocking facts were brought into the open during the seven public hearings on the Scott and Fellows Bills. One attorney for one of the music groups was forced to admit that he had taken $7,500 from James C. Petrillo of AFM (American Federation of Musicians) to aid in his fight against juke boxes. Other facts, such as the one where ASCAP had promised to no longer molest small businessmen were also brought to the fore. Attorney Morris C. Bristol of Wurlitzer presented the fact that ASCAP was taking in more money than ever before from juke box records. Others who spoke, like David C. Rockola, proved other points. Sidney H. Levine, attorney for the New York operators' association, presented the fact that prior to the "Copyright Act of 1909" there had been much discussion in Congress regarding juke boxes. All these men who spoke and acted for the juke box industry are to be complimented on the logicality and soundness of their arguments.

But, who knows what next year, and the year after that, and after that, too, will bring up before the trade? Attorneys for the powerful music organizations have openly stated that they have just begun to fight. They claim that they will continue to present their bills year after year, "And", as one of them frankly told some of the juke box coinmen present in Washington one day, "we're going to win out. You fellows have been riding along for nothing for too long."

That's the sort of thing that requires the need for a "National Automatic Protective Association". This non-profit body, with certain of its members chosen as officers, and completely confining itself to national problems, will prove of tremendous value to all the automatic music industry of America.

These are the men who must help to protect the weaker members of their industry with their energy, intelligence, ingenuity and finance. They have been doing it anyway. But, they've been doing it as individual groups, not as a combined and closely knitted organization.

The time has arrived for the members of the automatic music industry of America to act. There is time to meet and to discuss plans and ideas and set up a general preparedness program for their industry.

They will then he able to present a unified group to whatever attempts are made against them in the future. And, what's more, there will be unity of action — for, as the slogan of the United States of America reads, "E Pluribus Unum", in union there is strength. This is the time for such union.

"Enthusiasm and Leadership"

A guest editorial by Senator Homer E. Capehart Chairman of the Board of Packard Mfg. Corp., Indianapolis

The time has come for this coin operated music business to make a complete reversal of former policy. The trade has been moving along on the momentum brought on by the flush times boomed into this field by the war period. The members of this industry must reverse that policy. They must change their products and their tactics. They must not only bring themselves greater respect and greater understanding, but must also bring about greater appreciation for the great work they have done by bringing musical entertainment to America's millions when there was, and still is, no other medium to do this so economically, and when there is no other factor which can so greatly exploit music appreciation to the humblest as well as to the mightiest.

Operators need to arrange for a better commission basis. The operator should adopt the 75%—25% commission basis. Every member of the automatic music industry realizes the tremendous necessity for the adoption of such a commission basis. There is no swerving from this need. There is no compromising. The operating base of this business must be made solid and strong and financially liquid if all the other factors built on that base are to continue successfully.

Only when the operator is earning profit, can he see his way clear to expanding his operations and, at the same time, take on further obligations. Only then will the selling and manufacturing divisions of the coin operated music industry be able to profit, too. The operator must arrange for a better commission basis. He must get a much larger gross income from all of his automatic music equipment.

The music operator must obtain a better commission arrangement to assure remaining in the automatic music operating business in a profitable and successful fashion. The higher cost of the machines, of parts and supplies, of trucks and tires, of labor and of all other overhead expense, has forced this on the operator.

No music operator should now hesitaate to assert himself as far as the retailer is concerned. Nor should he give as an excuse the fact that others in his territory might not follow his lead were he to adopt the 75%—25% commission basis. He should ask himself, "Did I ask these other people in my territory whether I could enter into the automatic music operating business here?" He will admit that the answer is "No" to this question. Therefore, he should at once convince himself that because someone else wants to commit financial suicide is no reason why he, too, should bankrupt himself. He absolutely must change his present commission arrangement for this is the crux of the paralysis of the automatic music business at this time.

The operators of automatic music must enter into and attain the highest possible business level. The operator must assume an entirely different attitude regarding his business. He must be proud of it. He must prove to the public and to his location owners this pride in what he is doing for America's millions of music lovers. He must drive to the point where the location owner will be convinced that only the finest sort of music and the best sort of service is what he, the retailer must have. And to give the retailer such music and service the operator must obtain a better share of the income from his machines.

Furthermore, enthusiasm and leadership will help bring back boom times to the music business and will raise its level up and above whatever it has ever been before. This industry hasn't even yet entered into its post-war period. There is no change, in any radical form, from the same machines which appeared in the industry prior to the war. The field has a long way yet to go.

Everyone in the automatic music industry of America realizes that this business will jump to great heights as soon as real enthusiasm and the real leadership is forthcoming to help bring retailers a new kind of post-war product which will win them over, as well as win the public's esteem and respect and, in this way, start the automatic music boom which has long been predicted by all in the field.

Those two words—enthusiasm and leadership—should be engraved in the hearts and minds of all who are sincerely interested in seeing the automatic music business expand and in seeing it grow ever greater. These two words, enthusiasm and leadership, are among the greatest necessities during this period of American business.

And by the automatic music industry spreading them thruout the land and following thru with the right kind of equipment and business acumen there is no doubt that they will catch on with the public and bring to this industry the boom it has so long looked forward to.

"THE CASH BOX" IS THE OPERATOR'S MAGAZINE

MDSE MACHINES GET GOING

Start Placing New Beverage and Cigaret Venders. New Blood Eager to Enter Field.

NEW YORK — New merchandise vending machines are beginning to appear on locations thruout the country once again. The result has been to interest a great deal of newcomers in the field, according to the old time ops, and there is now a growing demand for more of the new equipment from all parts of the nation.

Most impressive is the fact that the merchandise machine manufacturers have not hesitated for a moment, but have gone right ahead with their post-war plans for new equipment which has caught the fancy not only of the coin machine operator, but, even more important, of the public.

With the press giving continuous free columns of publicity to the new, forthcoming vending machines, and with the further fact that more and more strangers to the field have been inquiring about vending machines they have read about in their daily papers, this new equipment bids fair to gain a rousing reception.

The merchandise machine division of the industry has really gone all out for the true, post-war type of machine. There has been no drift back to former types of equipment. The manufacturers in this field are to be complimented on their foresight and vision in manufacturing the sort of machines which they believe that Johnny Q. Public and his Missus want to see.

The result here is again that the trade itself, the operators and distributors, are much enthused over the prospects for the future. They feel that with these radical changes in the vending of various different products, never before attempted, they have the beginning of a grand new era for the merchandiser field.

What's more, all in the trade seem to agree that the vending machine field is destined to step far ahead of all other divisions. The publicity departments of the manufacturers in the vending machine business are working overtime. The public relations staff is contacting all leading media in the country and expounding the cause of the merchandisers to one and all. With such effort, energy and ingenuity at work — the manufacturers are bound to find a very fine market waiting for them.

Therefore, the appearance of the first new beverage venders, cigarette machines and other products which have so far been introduced, has not only captured the imagination but has stimulated everyone in this division of the business to the assuredness that they are going to again lead the field.

It is extremely interesting to note that the average merchandise machine operator has continued ahead successfully because he has been able to control the percentage of commissions he has paid to his location owners. Also in this field is the agreement among the operators to work together.

Almost everywhere the manufacturers cooperate with the local associations and the NAMA (National Automatic Merchandising Assn.) has been taking in such local organizations into their own association in block membership. This has encouraged the operators in the field and has helped them to continue on ahead in the belief that the manufacturers and all others in the field are behind them in every manner.

The merchandise machine operator also seeks to bring new and different products to the public and with the first new equipment meeting with such good acclaim (which is attested by the fact that collections have jumped to new high points where the new machines have appeared) there is no greater backlog of orders in the hands of the merchandise machine manufacturers than ever before in their history.

It is not to be misunderstood by the reader that machines are coming off production lines in any heavy quantity. The shortage of materials is still very great. Components are extremely difficult to obtain. True production on a grand scale won't be seen, according to experts in vending machine manufacture, for at least six months to a year.

But, the enthusiasm which has greeted the first new type venders which have been produced is so great that optimism has swept over the entire field with many now of the belief that they are most definitely destined for first place in the affections of the professional coin machine operator, and especially in the affections of the public which has greeted the new venders with such grand attention.

Here, again, merchandise machine men state, is the reason why the field is the leading one in the entire coin operated machines industry. They claim that only because of the public's demand have they gone on ahead with new and greater developments of a true postwar character. They also feel that the frozen food machines, milk venders, and many other types of merchandisers, which are as yet forthcoming will find the venders far out ahead of anything ever imagined in the coin machine business.

Leading manufacturers are not only producing whatever they can and as fast as they can, but, they are working on new equipment developments with which they intend to surprise their customers and the entire industry. They feel that only by bringing the very newest ideas and programs to the business of vending automatically can they gain the immediate confidence of the operators, the location owners and the public. And they stand unchallenged in this reasoning.

Some of the manufacturers have had new machines in operation for sometime now even tho they haven't as yet announced them. They believe in thoro pre-test of all equipment. It is this carefully cautious and conservative method of manufacture which has won such confidence from the trade. It is also noted that this has resulted in extremely fine collections because the public have taken very well to the new machines and are anxious to see more of them appear.

Already all are planning ahead to the forthcoming show in December and even tho the Summer months have just begun the operators in this field are of the belief that when the NAMA show at the Palmer House does roll around that all will be most heartily appreciative of the waiting period

THE CASH BOX Record Reviews

"Something For Nothing"
"Last Night In A Dream"
FREDDY MARTIN ORCH.
(RCA-Victor 20-2318)

● Pair of sides done up in light manner and aimed at the more sophisticated spots are offered here by the Freddy Martin ork in pleasing fashion. Titled "Something For Nothing" and "Last Night In A Dream," the waxings should serve ops having those quiet spots well. Top deck features balladeer Clyde Rogers as he spoons the wordage in slow metro while a background of strings brings the performance up to full tone. Backing, adapted from Mendelsohn's Concerto shows a spot of maestro Freddy's piano and vocalist Stuart Wade in the lime. A romantic fling, the waxing as rendered here, should make attractive filler material in many a phono.

"Too Marvelous For Words"
"Tenderly"
RAY DOREY
(Majestic 7246)

● An oldie shines thru once again this week and of the brand that may well cause the record biz to sit up and take notice of this balladeer. It's Ray Dorey doing "Too Marvelous For Words," and that's just what this platter is. Ray's vocal rendition makes for pleasant listening all thru the waxing; as his fine baritone rises above a background filled with strings. Ably assisted by the Paul Baron ork, the disk is one to be heard. On the flip with a cupiditty, Ray shows his wares in top fashion with "Tenderly", a slow dreamy ballad that perhaps won't stop traffic, but nevertheless is good music. Both sides definitely rate your listening time.

"There's A Train Out For Dreamland"
"Smoke Gets In Your Eyes"
RAY DOREY
(Majestic 7247)

● Ray Dorey, who earned a fine beginning via his disking of "Mam'selle," comes up with a ditty designed for the parent trade on this latest offering. With lyrics that can be termed a modern children's lullaby, the presentation both by Ray and the Johnny Guarnieri Trio is also suited to phono use, and it should do well wherever the more settled folk gather. The flip, "Smoke Gets In Your Eyes," is so well known and in such regular demand that it should certainly gather a strong portion of play on its own. Ray does an effective job on the vocal, and the side should prove a welcome addition to any box.

"Summertime"
"S'Wodnerful"
ERNIE ANDREWS
(Aladdin 193)

● A pair of great George Gershwin songs are paired together on this disk which features capable vocalist Ernie Andrews with the Maxwell Davis Trio. "Summertime," which has grown to the stature of a modern classic, is given an effective performance by the combo, and one that should net good action both as an item for the season and as a top side wherever the call is for good music and good musicianship. The flip, "S'Wonderful," is more of the same, adding up to a platter geared for steady coin culling over a longer period of time than most.

DISK O'THE WEEK

"Boogie Woogie Blue Plate"
LOUIS JORDAN & TYMPANY FIVE
(Decca 24104)

LOUIS JORDAN

● Another hot Louis Jordan special is served up by the maestro via this disking of "Boogie Woogie Blue Plate." Replete with all the great instrumental features that have made the Tympany Five one of the greatest coin culling combos in automatic phonodom, this deck goes to showcase Louis with some really first rate lyrics, the kind that grab the phono customer's ear and send him back for more. The side tells its story in back-of-the-lunch-counter jargon, and it offers some great kicks. Latch on to this deck; it's another Jordan winner. The flip, "Sure Had A Wonderful Time," has some neat melody and some effective lyrics, but it doesn't compare to what Louis sells via the top side. You can take over from there.

"Keep Your Big Mouth Shut"
"Memphis Gal"
BULL MOOSE JACKSON ORCH.
(Super Disc 1045)

● A super-disc — that's with this one! Bull Moose Jackson, one of the more capable musicians floating around steps out with his right foot as he offers this splendid piece aimed at these race spots just waiting for coin play. "Keep Your Big Mouth Shut", with beat aplenty, and some wonderful breaks by the band, is a cinch to clinch that extra phono spot on your machine. Bull Moose wails his tale in top fashion, as he tells phono fans of his 'high' affair, with the wind-up revolving around the title. Echoing one of the smaller combos around, the maestro's rendition will liven up lagging phono play in many spots. On the flip with "Memphis Gal", Bull goes off the deep end on some blues done up really brown, with a spot of a fine ivory roll in there. Peg the top deck for moola galore.

"Mr. Blues Jumped The Rabbit"
"Whiskey and Jelly Roll Blues"
WYNONIE HARRIS
(Aladdin 171)

● Ops looking for some natural stuff for their machines will find it in this pair. The great Wynonie Harris steps to the podium to offer "Mr. Blues Jumped The Rabbit" — one of the best "race" sides to be heard in this corner in some time now. Coupling the cute wordage to a fast beat that literally racks with rhythm, Wynonie pipes the lyrics in manner just made for the maestro. The hep crowd will stomp for joy with this one, as they slide the buffalo hide into your phono. On the flip with some real low down blues, done up brown in a heavy mood. Mr. Blues renders "Whiskey and Jelly Roll Blues." Stuff is really gone with all the riff and holler you can stand. Both sides are sure bets for added coin play.

"Rockin' Horse Cowboy"
"Ask Anyone Who Knows"
LARRY DOUGLAS
(Signature 15123)

● One of the best performances ever turned in by Larry Douglas appears on this disk, which, in addition to offering a pair of powerful songs, also features the top notch music of the lush Ray Bloch Orchestra. With this instrumental backing, Larry steps up to deliver the nostalgic and heart warming "Rockin' Horse Cowboy," a ditty geared for big play in tavern spots, and the very romantic "Ask Anyone Who Knows," which can be put to god use in just about any phono. A fine value for the trade in that both decks should net strong action, the disk should also do much to boost Larry Douglas into much more active demand. All the lad needs is the kind of ork he has here to ride on, and he can really take over from there.

"Sweet Marie"
"The Turntable Song"
JACK SMITH
(Capitol 435)

● Jack (the happy voice) Smith turns in a top flight performance with a first rate tune in the top side of this disk that's tabbed "Sweet Marie." A catchy, bouncy melody, the ditty is tailor made for Smith's style and talents, and he really comes up with it to fit the needs of the trade. Assisting him in this, and to good advantage are the Clark Sisters, who blend their voices to the lyrics to help make it a well rounded side. Peg this one for a hearing. The flip, "The Turntable Song," is a novelty thing that's annoying enough to catch on. As the title suggests, it's a hymn to the disk jock, and tho the type has not met with success as yet, this one may be it. Bartenders will hate it, because the lyric is patterned on the repetition formula. But, after all, the bartenders didn't like "Richard".

Only Records Considered Best Suited To The Requirements Of The Trade Are Reviewed On These Pages.

THE CASH BOX Record Reviews

"I Wonder Who's Kissing Her Now"

"Lolita Lopez"

THE DINNING SISTERS

(Capitol 483)

● Plug tune from the flicker of the same name shows the Dinning Sisters in sharp light as they offer ops the oldie titled, "I Wonder Who's Kissing Her Now." Purring soft like a kitten, the trio trill to make mellow music of the variety that won acclaim for them time and again. Ditty spins in slow tempo, with a pick up in the latter chorus to flavor the side greatly. Once the pic makes the local rounds, you can peg the tune for heavy coinage. On the bottom deck with their fable 'bout that terrific gal "Lolita Lopez," the group make merry music to fill the needs of many an op. Altho "Lolita" doesn't appear to be going any place, you can count on the tune for an attractive bit as filler material.

"Until The Real Thing Comes Along"

"Billy's Boogie"

BILLY BUTTERFIELD ORCH.

(Capitol 434)

● "Until The Real Thing Comes Along", as offered here by the great Billy Butterfield shapes up nicely for the maestro as he toots and pipes the wax in resplendent fashion. Ditty spinning around the title has Billy vocalizing in toned down tempo, while a rhythm section plays behind. Band break gives the tune lots of flourish. On the backing with an instrumental item, the crew render "Billy's Boogie," in mellow time that the straw sipping crowd might go for. Spot solos in the tune give way to a neat piece by the maestro to round out the cookie.

"I'll Look Around"

"Baby I Don't Cry Over You"

BILLIE HOLLIDAY

(Decca 23957)

● Pair of sides that ops who have customers that go for this brand may use to good advantage are offered here by the capable Billie Holliday. Singing purty, in the sultry style which gained wide aclaim for her, Billy renders "I'll Look Around." Incidental music provided by Billy Kyle and a rhythm background displays its ware in effective manner, with not enough room given to move around. On the flip with more blues, this time in rhythm style, Billie does "Baby I Don't Cry Over You." The chirp's many fans are bound to go for the pair, since they represent the thrush at her best all thru.

SLEEPER OF THE WEEK

"On The Old Spanish Trail"

"All My Love"

ANDY RUSSELL

(Capitol 432)

ANDY RUSSELL

● At long last Andy Russell has come up with a disk that's bound to satisfy his horde of impatient phono followers, and it features a pair of sides that appear slated for a ride to the top of tunedom. Big deck for the trade is "On The Old Spanish Trail," a western-like romantic ballad that's given lavish dressing in support of Andy's well known vocal talents. With the clip-clop of hoof beats setting the pace, Andy turns in one of his better vocal jobs to date, and the side winds up a treat for dancers and listeners alike. Get it out on your route. The flip, "All My Love," is a lush romantic thing in waltz tempo, and Andy combines with a choir to do the vocal. A sweeping, haunting thing as performed here, the deck is another that's loaded up with "sleeper" possibilities, and heavy plugging may push it into something even bigger than its mate.

"Wabash Blues"

"Linger Awhile and Stumbling"

RUSS MORGAN ORCH.

(Decca 25107)

● Where Russ Morgan fans gather, they are bound to find plenty of appeal in these sides. An oldie steps out on the top deck in the person of "Wabash Blues", with the maestro's trombone filling the air with lots of the old wah-wah. On the backing the maestro picks up the pace a bit to offer "Linger Awhile," and "Stumbling". Ivory flourish emanates throughout, with lots of rhythm winding thru to round out the side. Both sides are aimed at the more somber spots, and especially so at the crowd that tinkles glasses. You know your route better than we do — so take it from here.

"Skip Rope"

"If I Should Lose You"

JUNE CHRISTY

(Capitol 436)

● "Skip Rope," skip class — skip everything but the phono is what the kids will do once they latch on to this piece by June Christy. Terrific chirp with that faint quiver in her tonsils on a solo from the Kenton krew, shows her pipes oh so mellow with this cookie. Natch the wax echoes the title, but then again that title spells coin play. Ditty spins in bounce tempo as the thrush, backed by Frankie DeVol and his wonderful ork, wails the oh so cute wordage. A nickel nabber for sure, in any spot where the bobby sox crowd gather is the ode this platter plays. Backing shows the lass' vocal efforts in the lime again, and words aren't enough to shower the canary with. Therefore, your customers will do it with jitney galore when they hear "If I Should Lose You." June tells the crowd what will happen— if I should lose you —in haunting mood with some great accompaniment again by the DeVol boys. "Skip Rope" is tabbed — so latch on!

"Dream Street"

"Get Up Those Stairs, Mademoiselle"

DEEP RIVER BOYS

(RCA-Victor 20-2305)

● Long missing from the phonos the Deep River Boys come up with a tune that may well regain for them the coveted position they held several years ago. Spooning a lullaby hinging on a memory twist, they offer "Dream Street." Wax spins in very slow tempo as the group render the nostalgic lyrics smoothly styled all thru. On the flip with a tune currently making the rounds, the combo add a bass vocal to the wordage of "Get Up Those Stairs, Mademoiselle." to score effectively with the ditty. Both sides make for pleasant listening time, so give 'em a whirl.

"Let Me Love You Tonight"

"He's A Real Gone Guy"

NELLIE LUTCHER

(Capitol 40017)

● Nellie Lutcher, who can make with a song like nobody else (so far as her own particular style is concerned) warbles a pair of ditties on this cookie that should net some really worthwhile returns from the race spots along your route. Offering "Let Me Love You Tonight," a well known romantic ballad, Nellie and gee-tar shape the melody into her style and what comes up is something that Lutcher fans should appreciate. The flip, "He's a Real Gone Guy," is a simple enough ditty, but the way Nellie turns it up makes it something else again. If your spots go for Lutcher, serve this to 'em. If they don't know her yet, use this platter as an introduction. It's likely to become a profitable acquaintanceship.

JUKE BOX REGIONAL RECORD REPORT

The Ten Top Records-City by City

FOR THE WEEK OF JULY 14, 1947

New York

1. I WONDER, I WONDER, (Tony Pastor)

8. I WISH I DIDN'T LOVE YOU SO (Dinah Shore)
9. TIM TAYSHUN (Red Ingle)
10. CHI BABA CHI BABA (Peggy Lee)

BYRDE'S EYEVIEW 'ROUND THE WAX CIRCLE

by Byrde Gore

When our research department put our Harlem chart together for this issue, one record was omitted that might well have headed the list. Title of the platter is "The Lady's In Love With You," by Nellie Lutcher, and it's part of Capitol's Americana series. Ops and retailers thruout the Harlem territory report a sensational demand for the disk, and their individual orders for it are in hundred-lots. It was Nellie's first record for the waxery, and when it arrived here it caused little if any stir; and then — BOOM — it happened. Ops and retailers were besieged. Telephone lines to Capitol's New York distributing branch were jammed with calls for "The Lady's In Love With You." And the distrib sold out his entire stock of the number in a matter of hours. Unfortunately, however, the stock here was too small to meet even a small part of the demand that was created, and, as a result, only a few lucky ops had it to put out on their routes, and even this was not in the quantities required. Meanwhile, Capitol's Scranton (Pa.) plant had shut down for the annual vacation period, and additional pressings will not reach New York until early this week. Too late to be counted in the Harlem chart for this issue, but early enough to cash in on what looks like a smash and important hit. Watch for it.

* * *

And, continuing on the Harlem track, ops are advised to watch for Decca's forthcoming Ella Fitzgerald album, featuring a collection of her best known platters. They will be sold as singles to the trade. Meanwhile, Ella's "Lady Be Good" is catching great big action up Seventh Avenue way; get next to it . . . Signature Records claims a smash in Johnny Long's "An Evening In Paris," a recent "Sleeper Of The Week" selection in The Cash Box . . . Continuing to drive the phonos to action is Frankie Laine, Mercury Records' songsation. They guy is now so big that the familiar question — can he last? — is the way a pair of guys meeting on Broadway now begin a conversation. And the way it looks, Frankie is in for a long stay . . . A party skedded for Mercury's Vic Damone at New York's swank Monto Carlo. After the job he did on "Ivy" and "I Have But One Heart," the laddie deserves it.

* * *

And speaking of "I Have But One Heart," Frank Sinatra's disking of the tune was made about two years ago, and some say it would not have been released even at this time had the Vic Damone cutting not shown the way. Meanwhile, Marilyn Robideaux, the shapely blonde, in charge of music op sales for the local Columbia distrib, reports that their entire first shipment of the platter was sold out the day it arrived . . . Harry Bank, former president of -Cosmo Records, set to enter the record business again come September. He'll specialize in a classical catalogue . . . Milt Benjamin, Sonora Records veepee, expecting big things from Baby Dee's "Like He's Never Loved Me Before." Many copies of the platter have been sold for Harlem phono use . . . One of the best things we've heard in weeks is Cootie Williams' "I Want To Be Loved," and the backing is just as good . . . If you haven't got Red Ingle's "Tim 'Tation" you're missing a great big bet.

* * *

Over at Apollo Records the folks are expecting great big things from the new Charlie Barnet cutting of "Caravan." Music authorities who have heard it are beating a lot of big drums in its praise . . . Jan (Misirlou) August and Irving Gwirtz are feudin', and until the wrangle is settled Eli Oberstein must wait; all indications are to the effect that the pianist will join the RCA Victor roster as soon as the AFM permits . . . Floyd Bittaker, Capitol's national sales chief, returns to the West Coast via a stop-over in Cleveland, he left New York on July 10

NOTICE

TAKE NOTICE that we the undersigned hereby publicly announce that we will not be responsible for the effect on the general public which will be created at the release of the new Frankie Laine Mercury recording No. 5059.

NOTICE is hereby given to:

1. Females from eight to eighty.
2. Platter prestidigitators.
3. Writers, reviewers and music critics.
4. Husbands, boyfriends, fiances and harem owners.

The reason for this drastic action is as follows:

a. Frankie Laine has just recorded for us, ready for release on July the 15th, 1947, a tender, moving and familiar love ballad. What Frankie Laine has done to this melody remains to be learned only by audience reaction. We know that he has taken a love song, hexed it up in true Laine fashion, and added to it all the zest, sparkle and color of a Noel Coward drawing-room scene.

b. Of the following three things we are certain.

1. No one but Frankie Laine could do it.
2. This tune outdesires "Desire".
3. It's destined to become the most talked about recording of the year.

Signed Jimmy Hilliard

C. Holmadge

Lissen Records Bows In Indie Disc Field

NEW YORK — Following on the heels of the recent Petrillo blast at the recording industry was the announcement made this past week of a new entry into the record business, Lissen Records.

Henry Brown, president of the plattery announced that their first release by balladeer Jimmy Foster is to be the oldie "Cuban Love Song." Lissen recently released an album of eight sides by Morey Amsterdam.

At present, the diskery is still in the process of organization, with distribution channels being negotiated.

Contrasting to the new indie entry was the meeting in Los Angeles of the bankrupt Pan American Record Company creditors. The meeting was called to determine whether or not 120 masters held by the company should be sold or listed as among the firm's assets.

Vitacoustic Records Ink Busse, Arnold & Port

CHICAGO, ILL. — Vitacoustic Record, Inc., announced to the trade this past week the signing of the Henri Busse orchestra to a long term contract. In addition to Busse, the plattery also signed the Jan Arnold orchestra and singer Tommy Port.

Busse's first recordings are expected to be released August 1. Arnold formerly was with the Carmen Cavallaro band Griff Williams and others. Port sang with the old Ted Fio Rio ork, Scat Davis, and Henri Busse.

L. B. Pambrun To Head Majestic Exploitation

CHICAGO — Majestic Radio and Television Corporation have announced the appointment of Leo B. Pambrun as its new director of advertising, sales promotion and public relations.

Pambrun brings many years of radio and appliances merchandising experience to Majestic, where he will supervise promotions on radio, records and television. He recently resigned from Stewart-Warner Corporation, as manager of radio advertising, to accept this new appointment.

Pambrun had joined Stewart-Warner in January, 1946, after three and one-half years in the U. S. Marine Corps, where he served as Combat Correspondent and Air Combat Intelligence Officer. Before the war he was assistant advertising manager of the Crosley Corporation, Cincinnati, and earlier had been with Brunswick-Balke-Collender Co. and Stewart-Warner in Chicago. in advertising and promotional capacities.

Prima Pacts With Victor

NEW YORK — Louis Prima's orchestra was signed to a recording contract with RCA-Victor this past week, following a series of negotiations with Eli Oberstein, RCA artist and repertoire head.

Prima signed a two year pact this past Monday, July 7. Prima's contract with his former plattery, Majestic Records, expired when the maestro gave the firm 30 days notice, as per one of his contract clauses. In addition to Prima's good news of the day, was the glad tidings that the maestro's horse "Dance Pretty" came in the money.

Gremlins—

. . . Must be those flying saucers — or sumpin'. At any rate a gremlin got into the Super Disc Record ad last week and the title and record number of the wax advertised was inadvertently left out. The recording: "Keep Your Big Mouth Shut." The number: Super Disc 1045.

HOT in Harlem

The Ten Top Tunes Netting Heaviest Play Compiled From Reports Submitted Weekly To The Cash Box By Leading Music Operators in New York City's Harlem.

1 WHEN I WRITE MY SONG
Herb Jeffries
(Exclusive 16x)
Ops report this one of biggest clicks of the year!

2 DON'T YOU THINK I OUGHTA KNOW
Bill Johnson Orch.
(Victor 20-2225)
Blossoms into its own to garner the second spot this week.

3 PEG O' MY HEART
The Harmonicats
(Vitacoustic 1)
Holding its own in New York's Harlem, and in every spot in the nation.

4 LADY BE GOOD
Ella Fitzgerald
(Decca 23956)
The scat styling of this one has it up near the top.

5 BABY, I DON'T CRY OVER YOU
Billie Holliday
(Decca 23957)
A great tune by a great artist, with ops reporting the ditty a great coin culler.

6 SUMMERTIME
Al Hibbler
(Sunrise 2007)
Proves that ops will always buy good music — and this is that and more.

7 IT SHOULDN'T HAPPEN TO A DREAM
Al Hibbler with Duke Ellington Orch.
(Musicraft 484)
Hibbler and Ellington — a combo hard to beat!

8 THEM THERE EYES
Roy Milton
(Miltone 201)
Its tenth consecutive appearance in this column and headed for more.

9 ROBBINS NEST
Illinois Jacquet
(Apollo 769)
A smash recording that has kids from 6 to 60 playing the tune.

10 OLD MAID BOOGIE
Eddie Vinson
(Mercury 8028)
Harlem ops reaped harvest with this tune, and continue to rave about it.

RECORDS on the way up

THE FOLLOWING RECORDS ARE REPORTED "ON THE WAY UP" THROUGHOUT THE NATION.

(Listed Alphabetically)

AN APPLE BLOSSOM WEDDING

Buddy Clark

(Columbia 37488)

A host of ops report this tune headed for big things.

BLOOP BLEEP

Alvino Rey Orch.

(Capitol 428)

St. Louis ops say the ditty is a heavy coin caller.

I NEVER KNEW

Sam Donahue Orch.

(Capitol 405)

A record hit if there ever was one — will go in any spot!

I'M SO RIGHT TONIGHT

Jo Stafford

(Capitol 423)

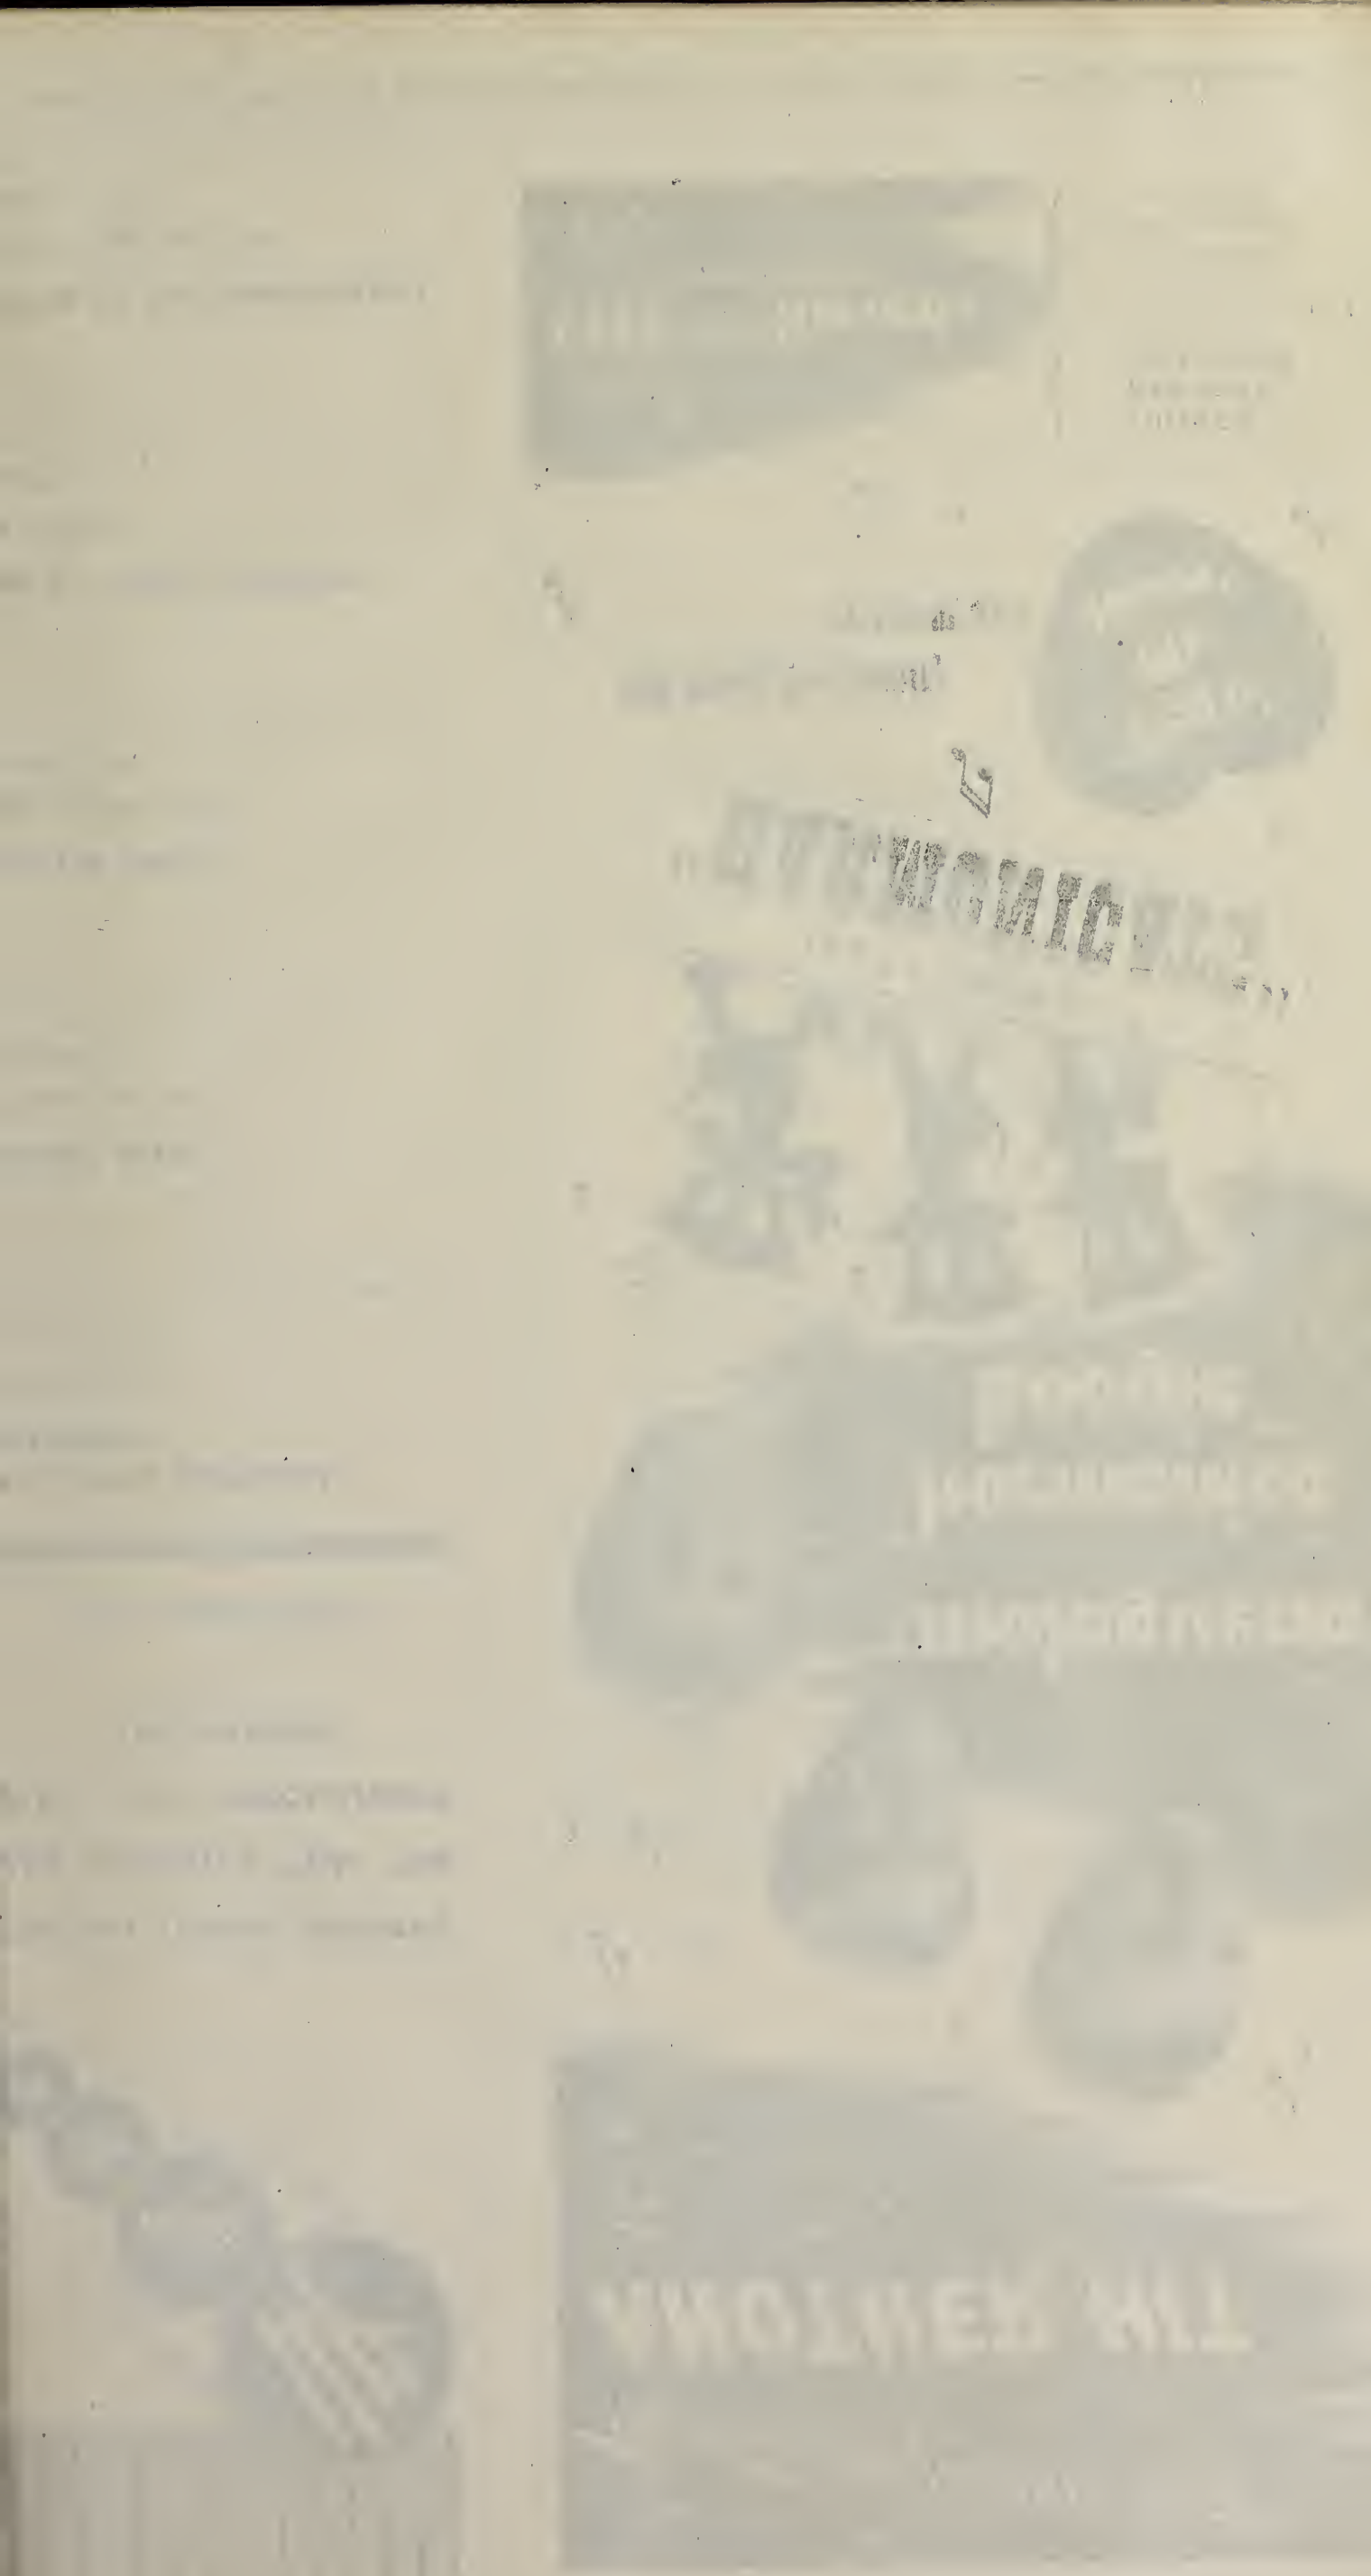
Music ops from Maine to California peg this ditty way on top.

COME TO THE MARDI GRAS

Victor Lombardo Orch.

(Majestic 7243)

Picking up lots of coin play in the east with ops in the midwest gradually latching on.



"Folk" and "Western" RECORD REVIEWS

BULLSEYE of the WEEK

"Song Of The Sierras"

"I Hear You Talkin' "

JIMMY WAKELY

(Capitol Americana 40016)

Garnering the featured spot this week is one of the cutest ditties to be heard in quite some time, and featuring the capable Jimmy Wakely, the platter stacks up way high. Jimmy offers "Song Of The Sierras," and does so in such manner that the ditty definitely has possibilities of going over as a straight pop hit. Spinning in slow mood, with a wonderful off beat on the drum, Jimmy pipes his song in smooth manner all thru the wax, with some neat string and brass breaks coming in behind him to pace the side. Backing goes off the deep end with a switcheroo in metro, as Jimmy echoes the title to some fast beat and flavors the tune with lots of kicks. Saga tells the crowd that Jimmy doesn't believe a word his gal says, and winds around that theme. Peg the pair for heavy coin play—and lots of repeat action at that!

"It's Too Late To Change Your Mind"

"Cocaine Blues"

BILLY HUGHES

(King 636)

The Billy Hughes fans, and they are legion, should flock to many a phono to hear this pair just packed full of the flavor and styling that made Billy the top ranking artist he is. "It's too Late To Change Your Mind," shows Billy in top line as he spins the cute wordage. Story tells 'bout the gal who had her change, with Billy coming in with the tag line. Tempo is merry and suited for spots where they go for dancing. On the flip with more kicks galore, the crooner renders "Cocaine Blues," and as the top deck rates, so does this side. Moral of the story on wax is to lay off the hypo, with Billy wailing the trouble he got into because of it. The pair is great stuff—get next to it by all means.

"Won't You Ride On My Little Red Wagon"

"Steel Guitar Polka"

HANK PENNY

(King 639)

Pair of sides that ops may use to favorable advantage are these offered by Hank Penny. Titled "Won't You Ride My Little Red Wagon," and "Steel Guitar Polka," the pair show up in effective fashion with the top deck getting the billing. Hank's vocal effort rides high, while a muted piece of brass flourishes throughout. Backing, an all instrumental affair shows the crew in top styling as they pitch thru this popular piece.

"I'm Lonesome Now"

"I Was Never Nearer Heaven In My Life"

SLEEPY HOLLOW RANCH GANG

(Majestic 11012)

The Sleepy Hollow Ranch Gang step out to offer ops a pair of sides that may attract phono play in spots that go for lots of wailing. The topside tune "I'm Lonesome Now," shows piper Elmer Newman in the tonsil department, as he runs thru this tear-jerker in slow tempo. Usual string accompaniment fills the bill thruout, with vocal efforts hogging the lime. On the backing with the Murray Sisters doing "I Was Never Nearer Heaven In My Life," the ensemble blends well as they offer more moody stuff. You take it from here.

Cleveiand Music Ops Set August Preview Date

CLEVELAND, O. — Cain Park Theatre, Cleveland's open air summer theatre, will be the scene of the next Hit Tune Party, Saturday evening, July 12, when the Cleveland Phonograph Merchants Association, in cooperation with the Cleveland Press, presents the latest record releases from which the Cain Park patrons will select by ballot the tune they like best.

The tune chosen will be the Hit Tune Of The Month for August, and will be featured in the number one spot in the 3000 juke boxes throughout the Cleveland area.

The tunes to be heard will be selected from new record releases by disc jockeys of Cleveland radio stations. An added feature of the program will be the distribution of 25 record alubums during the intermission of "Too Many Girls," show currently featured at the theatre.

Apollo Records Names Lorman Promotion Head

NEW YORK — Recognizing the need for closer cooperation with disc jockeys, talent agencies and automatic music merchants throughout the country, Hy Siegel president of Apollo Records announced that Nat Lorman, formerly in charge of publicity, has been named Promotion director for the firm in the east.

Lorman's duties will include arranging promotion and exploitation ideas with the artists, closer cooperation with talent agencies to take full advantage of the artists' engagements and record possibilities, and cooperating with phono operators to give artists the widest sales promotion material available from this medium.

Lorman has just returned from Boston where he helped give added impetus to one of Apollo's band attractions, Arnett Cobb, who recently made his debut there. This will probably become a definite policy with Apollo, who will send out their key men in the field to try and build their talent by direct contact on the road.

Gerry Colson has been named to handle publicity for the diskery.

Cyclone Records Cut Mae West Pair

NEW YORK — Cyclone Records, Inc., this city, announced to the trade this past week the forthcoming release of a special series of platters by Mae West, one time motion picture queen.

Two sides cut by Miss West, titled "Come Up and See Me Sometime," and "That's All, Brother, That's All," are scheduled for release late this July.

In addition to Mae West, the Cyclone talent roster includes James Barton, of Tobacco Road fame, Buck and Bubbles, the Peters Sisters and others.

Musicdom Honors Jockey Husing

NEW YORK — The recording industry took time out recently to pay tribute to disc-jockey Ted Husing at a luncheon tendered the platter spinner at the famed Stork Club in this city.

Pictured above are (left to right): Author Quentin Reynolds, Ted Husing, maestro Benny Goodman and Mannie Sacks, vice president in charge of artists and repertoire at Columbia Records.

Husing gestures at an early model phonograph as the 'amazed" guests look on. Husing's air show over WHN daily.

Jimmy Atkins Inks Long Term Continental Pact

NEW YORK — Another addition to its list of popular artists was announced by Donald H. Gabor, president of Continental Records, this past week with the signing of Jimmy Atkins, former Fred Waring vocalist, who is now slated for a big build up as a single via airtime and disks.

Four sides to be released featuring Atkins are "Heart Of My Heart," "I'm Forever Blowing Bubbles," "Along The Old Spanish Trail," and "I Think I'm Gonna Cry Again."

Atkins is now aired over 240 Mutual stations twice weekly, and has a Sunday program in New York over WNEW.

PETRILLO SAYS HE WILL HALT RECORDINGS DEC. 31

But Platteries Remain Confident, Even Optimistic

NEW YORK — Early this past week the thunder that is the voice of James C. Petrillo, president of the American Federation of Musicians, and acknowledged czar of the music business, rattled out before a House of Representatives Labor sub-committee, and the voice served notice that come December 31, 1947, the day when the contracts between the union and the nation's recording industry, would terminate, he would post the ban against the making of further records and transcriptions by the members of his organization.

It was a powerful statement made by the most powerful figure in the musical world. When the news of his decree reached this city, and its host of record companies, what should ordinarily have been felt as a critical blow to the platter factories failed its mark. The record manufacturers radiated optimism, Petrillo or no. Some even went so far as to declare, "We can beat Petrillo at his own game."

The fact that there has been a general lack of concern for Petrillo's statements, so far as recording executives are concerned, is in itself top news. It is news of importance to every music operator because he must have records to stay in business.

Petrillo, as president of the AFM, is the undisputed boss of some 216,000 musicians, a membership which includes every name orchestra leader and instrumentalist in the United States. And when Petrillo says they will not record, they won't. At least not if they intend to retain AFM membership, and without which, they can't work.

As a result, the recording companies must be holding some important advantages on their own if, as they have indicated, they intend to continue on despite Petrillo.

Experienced observers who have witnessed the hearings in Washington, which were called to investigate alleged unfair practices laid to the union, report that Petrillo was deadly serious in his statements regarding the banning of future recordings. They added, too. that when he declared that the union was considering entering the recording business this was no idle statement.

(Editor's Note: Recent information received by **The Cash Box** indicates that representaives of the AFM have been sounding out a number of sources which have led some leaders in the trade to believe that Petrillo has every intention of entering the record manufacturing business, if conclusions warrant such a move.)

The reasons Petrillo advanced for ordering the ban on further recording add up to his claim that the membership of his union is at the threshold of widespread unemployment for which he blames (1) the great use of recordings via radio in place of live talent (2) the use of big name orchestras for network radio shows at the expense of local musicians (3) the increased use of canned music via juke boxes which, he says, have done away with the usual orchestras even for funerals and weddings.

In addition. Petrillo declared that the union was dissatisfied with the present contract agreements they hold with recording and transcription companies. as well as the broadcasting stations.

Countering this, it is held by employers that Petrillo's basic dissatisfaction is with the provisions of the recently enacted Taft-Hartley Act, including one whereby the royalty payment Petrillo receives from the record companies will no longer be union controlled.

Up until this time, record companies have been paying a fraction of a cent royalty per record to the AFM for its unemployment fund. Under provisions of the new legislation, the royalty payment may continue, but the unemployment fund must also be administered by manufacturer's representatives as well as the union, and benefits from the fund may be paid out only to unemployed musicians who have been actively engaged in the making of records.

It is interesting to note also that the unemployment fund received $2,000,000 in accrued royalties from the record manufacturers for the year 1946. There are few who would not agree that it is more pleasant to administer $2,000,000 without outside interference.

As has been pointed out in the above, the manufacturers appear to be little concerned as to Petrillo's moves after the December 31 deadline. An examination of their possible recourses might well explain that attitude.

Here are but a few:

(1) The few larger manufacturers have tremendous catalogues of masters by the best known current and past big-name orchestras and individual artists. These catalogues go back many years. They can choose a group to repress and issue just as regularly as they do today with new material.

(2) The less enterprising of the smaller companies would fall by the wayside without new masters to press, thus eliminating a lot of thorny competition to the larger labels.

(3) The more enterprising of the smaller companies (and the larger ones, too,) could transfer recording dates for new material to Mexico, a three-hour automobile ride from Hollywood, and thus escape the Petrillo ban. This was done many times during the last recording prohibition period.

(4) The reissue of old records would save the recording companies millions of dollars in recording fees and, in many cases, the payment of royalty fees where the performances was bought outright.

(5) The ban on recordings might well serve as the impetus for the organization of a new non-AFM union among recording musicians, who will suffer as the result of the recording ban. A move that many people in the music business would delight to see.

So it can be seen that the record companies intend to stay in business with Petrillo, or without him and, if it takes a battle, they say "we're ready for it."

Thank You...
Ohio Phonograph Operators Association, for picking our latest ... and we think, our greatest recording...

IMPORTANT NOTICE

THE PRICES LISTED IN THIS ISSUE OF THE "COIN MACHINE INDUSTRIES (C. M. I.) BLUE BOOK" ARE FOR THE WEEKS OF

JULY 7 and 14 1947

PRICES FLUCTUATE WITH EACH LISTING TO MEET GENERAL MARKET CONDITIONS. THE "C. M. I. BLUE BOOK" IS ISSUED TO MEET AND LIST ALL MARKET CHANGES.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week: Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

1 MEANS PRICE WENT UP.

2 MEANS PRICE WENT DOWN.

3 MEANS MACHINE JUST ADDED TO LIST.

4 MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK.

5 MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.

6 MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.

7 MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.

XX MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.

YOU'VE NEVER SEEN A MORE AMAZING SOUND SYSTEM THAN

THE TEL-O-MATIC ROBOT

IT'S ALMOST HUMAN

Here is a golden chance for wide awake leading distributors to be first in the rich markets open to this finest development in Sound Engineering.

The Robot Unit has everything—phonograph for music programs — radio for special broadcasts — public address for paging, commercial announcements, etc. — amplifier powerful enough to drive any number of speakers in any type of location. There's no other equipment like it! No engineering as fine!

DISTRIBUTORS

The market for the Robot is as wide as the industry and commerce of America. Factories . . . Stadiums . . . Department Stores . . . Hospitals . . . Offices . . . Funeral Homes . . . Industrial Cafeterias, etc.

CONTACT US IMMEDIATELY FOR FULL DETAILS ON TEL-O-MATIC ROBOT DISTRIBUTORSHIPS

Named Packard Distrib

O. J. MULLININX

SAVANNAH, GA.—O. J. Mullininx, Mullininx Amusement Company, with offices in this city and Atlanta, has been named distributor for Packard Manufacturing Corp. for the state of Georgia.

Mullininx attended the recent Packard distributors convention in Indianapolis where he met Senator Homer E. Capehart. He reports all were extremely enthusiastic over the new "Manhattan" phonograph.

"I am very fortunate," claimed Mullininx, "to acquire the Packard line at this time when they are producing the "Manhattan". I consider it the most outstanding automatic music machine.

"We shall display the machine," continued Mullininx, "at both offices. Lester Black, manager of the Atlanta office, will be on hand to show the operators of that city the machine, while I will be here in Savannah to greet the boys from this territory."

Father and Son Team

CHICAGO—Dave Gottlieb, President of D. Gottlieb Company, this city, had a few things to say about "looking up" to his six foot son, Alvin, when he was recently photographed in his office at 1140 North Kostner Avenue. Two photographs on the office wall are from paintings of Dave's mother and father, made by John Dockteroff, famed portrait painter. Dave is mighty proud of the portraits which Dockteroff painted from an unretouched negative, and which had to pass a final test of approval from eight Gottlieb brothers and sisters.

Alvin Gottlieb is a recent bridegroom. He and his bride spent their honeymoon last April on a South American Cruise which began at New Orleans and took them to Vera Cruz

Out at the plant, there's a lot of friendly horseplay between Dave and his son. Dave says he never raises his hand to Alvin except in self defense!

But not all of Dave Gottlieb's thoughts are in such a light vein. They're shipping their new machine, "Lucky Star", air express these days

When asked to make a statement, Gottlieb obliged immediately with his sentiments as to the purpose of public relations.

He sees the program as vitally necessary "to educate the American public that the Coin Machine Industry entertains and serves the American people through juke boxes, amusement machines and vending. "It is our aim," Gottlieb stated, "to enlighten the public that our industry is an acceptable part of the American way of life, employing thousands of people and contributing to the livelihood of many more".

Announces Price Reduction

R. R. (RUDY) GREENBAUM

KANSAS CITY, KANSAS — From "Rudy" Greenbaum's office at Aireon's plant here comes the announcement of another price reduction. Effective immediately Aireon's Hideaway unit, complete with Monitor speaker, is being reduced from $499.50 to $399.50, a $100 slash in price.

"This new low price will help Aireon operators to amortize their investments sooner and turn over their capital faster. They can get more machines out on location and make more money, and that's what we're all working for", said Aireon's Vice President.

With all that is going on at Aireon these days, according to reports, interviewing "Rudy" Greenbaum is like trying to get a story out of the leading race driver during the last lap. Right now Rudy is said to be crusading on the side of lower prices. "In spite of high labor costs, continued scarcity and high prices of materials, Aireon is doing a commendable job of keeping prices stabilized and even reducing them in some cases, as on the Aireon unit mentioned above."

'We are doing our level best," said Rudy, "to conform with President Truman's request for lower prices. We are happy to lead the way in the music merchandising business, and we expect more good news on new items and lower prices for Aireon distributors and operators in the near future."

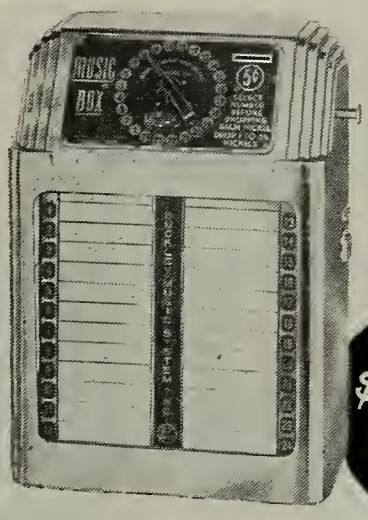
$50.00

THE NEW Music Box



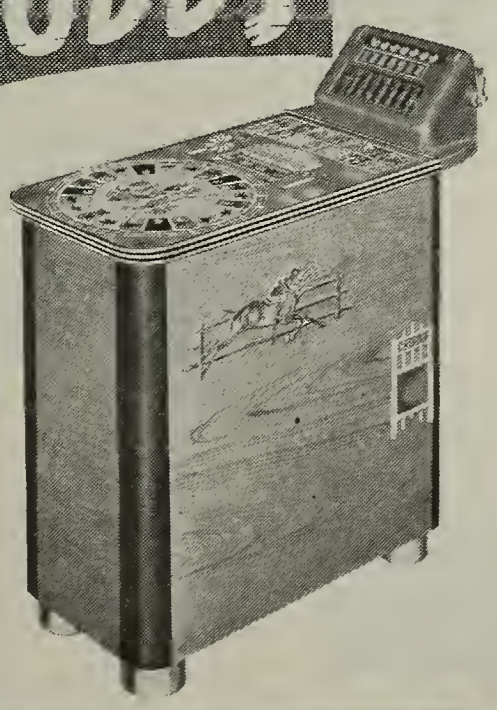
$25.00

Buckley gave Music Operators the FIRST practical and profitable music box at the LOWEST PRICE. Today, Buckley leads the field by offering a NEW music box of advanced design and perfection at a NEW LOW PRICE.

Quality of material and workmanship have not been sacrificed. This sensational low price is the result of economies realized in large quantity production.

The new Buckley Music Box is genuinely chrome plated, with beautiful red dial plates and attractively illuminated. Equipped with positive nationally known slug rejector and double capacity cash box. Complete program of selections always in full view. Buckley's exclusive features of construction, combined with outstanding beauty and eye appeal makes this the outstanding remote control music box . . . equally popular for wall or bar installation.

TRACK ODDS



BUCKLEY TRACK ODDS has long been recognized as the only seven-coin race horse console that would stand up month after month—year after year—and outearn all other coin machines.

Buckley operators know this to be a fact. Experience has proved that no other machine can even come in a close second from the standpoint of earnings. Every day new operators are finding out that the new BUCKLEY TRACK ODDS are even more profitable to operate than they hoped for.

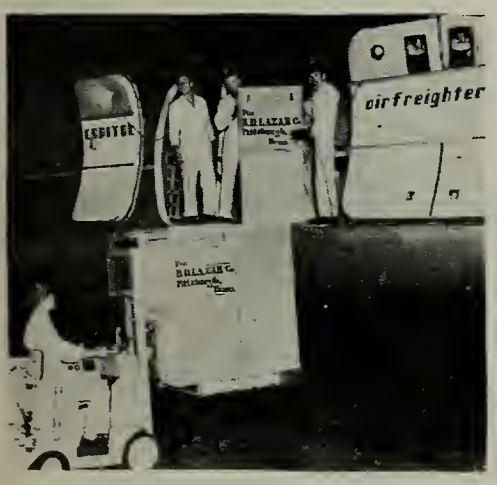
Lazar Flies Games



PITTSBURGH, PA.—Over 32,000 lbs. of airfreight shipments have come to the B. D. Lazar Company, this city, from D. Gottlieb & Company, Chicago.

The above photo shows Gottlieb's newest pinball, "Lucky Star" being unloaded in quantity from a Capital Airliner which arrived in Pittsburgh in time to give Lazar's operators many extra days' advantage of getting this hit game on locations.

Games are being received by the B. D. Lazar Company in two hours and twenty minutes after they are loaded onto the airfreighters in Chicago. 'This", J. D. Lazar of the firm stated this past week, "is speedier than any other service we have ever used."

With the truck strike now on in the Pittsburgh area this speedy handling of all shipments for the B. D. Lazar Company by Capital Airlines has enabled operators here to not only get Gottlieb games but to get them speedier than ever before resulting in bigger profits for all the men here due to the fact that they have been enabled to put them on location so much ahead of the usual time.

Stemler Named Int'l Distrib for Kayem

AUBREY STEMLER

HOLLYWOOD, CAL.—Jay Kurtz, president of Kayem Products Co., this city, named Aubrey Stemler international distributor for the firm's products. These include the Kayem Gum Vender, Vit-O-Min Vendor and Toothbrush dispenser.

The firm will also present a candy bar vender in the very near future, according to Kurtz.

All machines will soon be ready for distributors.

Stemler's offices will remain at 2323 W. Pico Blvd. in Los Angeles. Stemler reported that, "Kayem Products have the finest, most fool-proof and most compact vending machines on the market. Many territories are available", he continued, "for jobbers and distributors who are looking ahead to joining in the grand future facing the merchandise machine business."

Stemler is reported to be contacting many of the noted distributors in the business at this time to advise them of the new Kayem Products Company line.

He says. "There is no doubt anymore that Kayem is going to lead the vending machine field with the machines they are producing. This is the time for all leading distributors thruout the country to tie in with us."

Opens New San Antonio Showrooms

GENERAL DISTRIBUTING CO.

SAN ANTONIO, TEX.—George Prock of General Distributing Co., whose headquarters are in Dallas, and who also has branches in Houston and El Paso, officially opened his newest branch office for all southern Texas operators in this city, this past week, at 325 East Nueva, with Sam Winkler, well known coinman, as manager.

Open house was held for all the southern Texas ops for an entire week, from July 1 to July 8, including the July 4 holiday and also the Sunday of July 6.

The firm featured such new products as Williams "All Star" baseball machine, Keeney's "Carousel" and "Hot Tip", as well as the Rock-Ola phono.

In addition to the party the operators who attended were told, "General Distributing Company and all its personnel are trying their best to do a good job for the operator. We offer the best in quality, the quickest delivery and terms to meet your pocket book".

The firm displayed a most complete line of new equipment and also featured many specials in used machines. Complete parts department, repair service and many other features were called to the attention of the trade.

Both Prock and Winkler stated, "We are going to do everything in our power to make these offices the most outstanding in Southern Texas."

FOURTH HOLIDAY BOOMS RESORT PLAY

Resort Ops Down in Mouth Until 4th Holiday Weekend Booms Them Over the Top

NEW YORK — With rain greeting them almost every weekend, resort ops were plenty down in the mouth, until the "4th" holiday weekend came along with sunny skies and warm weather and the greatest crowds in all American history rushed to shore and mountain to cool off and have fun.

Resort ops, this past week, who came in to this city to replenish their stocks report, "This was the greatest life saver we have ever had. We were all ready to call it quits until this fourth of July weekend which put us over the top."

The jubilation was noticeable especially in the premium trade thruout this city which received orders from many far away spots by telegram and long distance phone to hurry shipments to replenish depleted stocks. Some of the resort ops declaring, "We ran out of everything—including hot dogs."

All thanked "old man sunshine" for saving them from what might have proved one of the worst summer seasons in history, regardless of the big reservation lists being held by all resort hotels.

One well known arcade operator reports, "Tho the hotels in my area are all booked with cash deposit reservations they, too, were plenty down in the mouth because of the cold and rainy weekends which caused a lot of people to actually forfeit the deposits they had with the hotels rather than endure the rain and cold at the seashore."

All stated that the crowds started to clog the roads beginning with Thursday afternoon and continued to grow greater right up to Sunday afternoon, when they reached their apex. Some are still remaining over to enjoy the good weather.

Resort ops reported, "The play was so great that it may set a new record high."

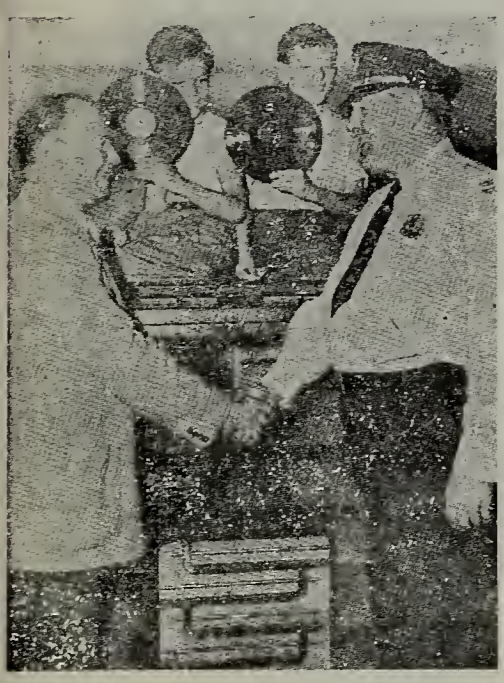
HOW TO FOSTER BETTER PUBLIC RELATIONS

Ben Rodins Donates Seven Juke Boxes Plus Thousands of Records to Metropolitan Police Boys Clubs. Gains Police, Civic and Press Acclaim and Commendation for Washington, D. C. Juke Box Industry

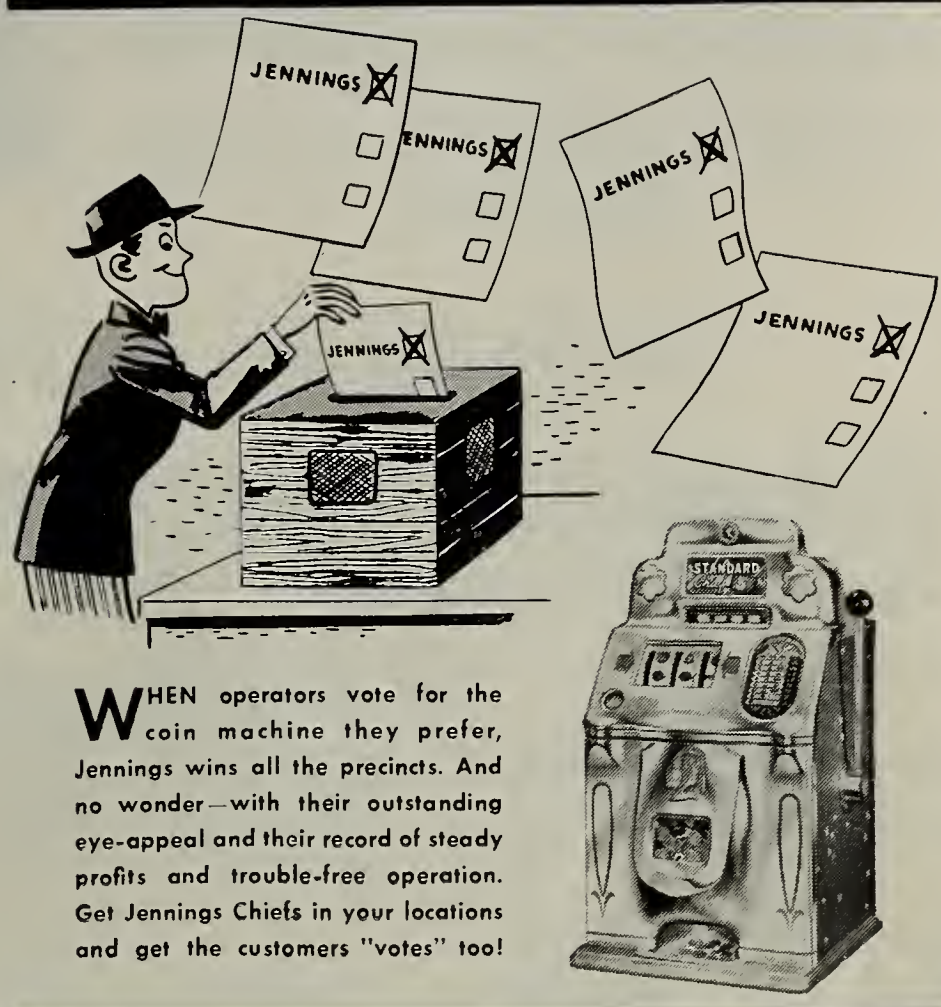


WASHINGTON, D.C. — The above picture shows Ben Rodins of Marlin Amusement, this city, being thanked by Police Capt. Robert Pearce for the seven juke boxes he donated to the Metropolitan Police Boys Clubs this past week along with thousands of musical, entertaining and educational records which the underprivileged youngsters of this city will be able to play and hear to their hearts' content at the Ernest W. Brown Camp in Scotland, Md., during the hot summer months and also in their local clubrooms. (This picture appeared in the "Times-Herald" of this city on June 29.)

Along with this donation Rodins arranged for free servicing and continued supplying of records. He has been acclaimed here for this very generous and charitable contribution by the police, civic leaders and the local press. The comments were extremely favorable to all Washington's juke box industry. (And that means, of course, to all the nation's juke box industry, too.)

(It is this sort of local public relations effort which helps this industry to properly expand and to develop accordingly. This is the sort of work which has been urged by The Cash Box upon all coinmen for the five years of its existence as the beginning of a "Public Relations Bureau" which bureau was later adopted and put into action by Coin Machine Industries, Inc. Now to back up CMI's Public Relations Bureau's efforts, every coinman in the nation should join in such effort as has Ben Rodins of Marlin Amusement Company, this city. This is the answer to the future growth and success of this industry.)

OPERATORS EVERYWHERE
GIVE VOTE OF CONFIDENCE



WHEN operators vote for the coin machine they prefer, Jennings wins all the precincts. And no wonder—with their outstanding eye-appeal and their record of steady profits and trouble-free operation. Get Jennings Chiefs in your locations and get the customers "votes" too!

Juke Boxes For Youth Approved By Juvenile Judge in Church Speech

BAYONNE, N. J.—In a comprehensive address at the First Methodist Church here County Juvenile Judge David Nimmo called upon churches of all denominations to provide greater activities and promote greater interest for children.

Judge Nimmo revealed that in most juvenlie cases before him, the defendant readily admitted that he was not attending church.

The judge pointed out that the youth of today requires his activities to be channeled.

In this regard he stated, "Get moving, get around, it's normal. Juke boxes in proper environment and supervision are excellent diversions. The theory is to keep youth occupied with good so that he will have no time for wandering ideas."

Judge Nimmo also stated, "The problem of youth is for all of us, and the church is the best medium of a proper foundation."

(Interesting as will Judge Nimmo's statements prove to every juke box coinman in the nation, many will recall former items which have appeared in *The Cash Box* highly commending juke boxes from churchmen, high school principals, and many civic leaders, because of the great work which they are doing to help eliminate juvenile delinquency. Judge Nimmo's statement to the members of the First Methodist Church that, "juke boxes in proper environment and supervision are excellent diversions" for helping to squelch juvenile delinquency, should be taken up by juke box coinmen in their own communities and donations made to churches and clubs so that youth will have a juke box in canteens and various club centers.

Sandler Named Rock-Ola Distrib for Iowa & Nebr.

IRV SANDLER

DES MOINES, IA. — Irv Sandler of Sandler Distributing Co., this city, has been named by Rock-Ola Manufacturing Corp., Chicago, as distributor for their automatic music products for the states of Iowa and Nebraska.

Sandler has been in the automatic music field in this section for some years and is reported to be extremely well acquainted with the music coin-men here.

In recent years he has extensively traveled thruout this area and has introduced many new sales innovations to the trade.

He stated, "I am extremely happy and very proud to report my connection with Rock-Ola Manufacturing Corporation. The new Rock-Ola phonos have clicked with the music operators in the states of Iowa and Nebraska and are rapidly taking the lead as the best music machines in these territories.

"There is no doubt", he continued, "that hard work and constant coverage by the music operators is making Iowa and Nebraska among the leading automatic music centers in the nation."

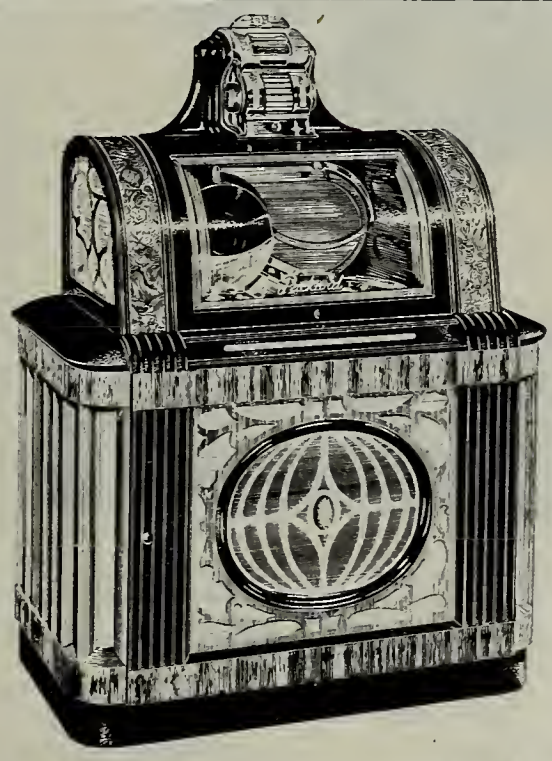
Rabkin Speaks Over WOR "Luncheon at Sardi's" Program

NEW YORK—An extensive public relations program has been inaugurated by International Mutoscope Corp., this city.

A special committee, consisting of William Rabkin, International's president; Al Blendow, sales manager, and Daniel Pliskin, public relations director, has been organized to create a program of nationwide scope. This committee proceeded on the theory that Mutoscope and the industry as a whole has an intriguing background with a lot of historic and human appeal.

This wealth of human interest material lends itself easily to newspaper, radio and magazine publicity. The development and success of such machines as the Mutoscope, Photomatic, and Voice-O-Graph, is full of romantic and historic interest. The Mutoscope, for example, is one of the machines from which the development of the motion picture industry can be traced.



SEE! HEAR!
THE "Manhattan" by PACKARD

Homer E. Capehart again dares to lead the field. He steps aut af a graave and builds a completely new phanagraph withaut regard ta canventian ar price. New Styling, New Quality, makes the new Packard the mast sensational machine on today's market.

SEE IT AT
WALBOX SALES CO.
1503 YOUNG DALLAS, TEXAS • 1511 LOUISIANA HOUSTON, TEXAS

Some tangible results can be reported already. True magazine, in its June issue, carried a fine article on Rabkin, International Mutoscope and its products. Rabkin has appeard on two radio programs: "Dorothy Day Speaks", over WINS; and "Luncheon at Sardi's", on a WOR-Mutual national hook-up. In each of these programs, the nature of the coin machine industry, as it affects the manufacturer, the operator and the consumer was discussed.

It is felt, by the members of the public relations campaign committee, that a large consumer audience will become acquainted with the business via the publicity program. Stories both of an editorial and tabloid nature about Mutoscope's products and the coin machine industry are soon to appear through the media of North American Newspaper Alliance, International News Service, United Press and other newspapers and newspaper syndicates as well as magazines.

Cleveland Music Ops Click With Their New Firm

CLEVELAND, O.—The reorganization opening of the Windsor Phonograph Co., this city, which is composed of the Cleveland music operators and other music coinmen thruout the state who are all stockholder members in the company representing Rock-Ola phonos in northern Ohio, was a huge success, according to James S. (Jimmy) Ross who is general manager of the firm.

Jimmy also reports that Louis Prima, who is now featured at the Palace Theatre here, came down to the showing and was happy to meet with the music ops. The Four Aces quartet also visited and gave the crowds attending a very pleasant listening session with their newest numbers. They are featured on radio station WJW here.

J. A. (Art) Weinand, salesmanager of the phonograph division of Rock-Ola Mfg. Corp. was on hand to say hello to the coinmen. The door prize was one of Rock-Ola's credenza bars which was won by C. C. Conrad of 2905 Chester Ave., this city.

Ross also reports, "Numerous telegrams of congratulations were received from all over the state and the nation at large. Others sent baskets of flowers until the place looked like a well stocked florist's shop. Many, many telephoned wishes for success continued to come in long distance all day long."

This is the first time in the history of this state that the music operators have come together as stockholders in the distribution of a phonograph. It is believed that this may result in an entirely new distribution era for the industry here.

Among those who attended were: J. A. (Art) Weinand and Jack Barabash, salesmanager and service manager respectively for Rock-Ola Mfg. Corp.; Nate Pearlman, Jack Cohen, Max Horowitz, James Sancitto, Wm. Presser and family, John Ross, Joseph DeCrescenzo, Norman Spitcen, George Conrad, Tony Sanford, P. Jenney, P. S. Goldheiner, M. Cousin, Joe Young and W. Hines, S. Kaminsky, H. Silverstein, S. Amder, Al Hanic, J. Malevan, J. Valenti, Myron Erb, J. Hilman, N. Hutchings, Sam Abrams, A. Gatti, J. Solomon, R. H. Borelei, N. W. McEntire, J. Fontana, I. Epstein, E. Ballanoff, H. Copeland, R. Levine and M. Snyder, Leo Green, John Bou-Sliman, Irving Glick, R. A. Pinn and Lee Morgan, I. Fink, J. Miklovic, R. F. Zorn, Carl Ertman, D. R. Witman, Lester Bieber, Virginia Holcomb, J. Abraham, A. Brezinski, and many others.

Nat Cohn Uses New Speedboat to Speed "Constellation" Sales

NAT COHN

NEW YORK — With the statement, "It's too hot in town these days", Nat Cohn advised that he is using the brand new Higgins speed cruiser he just purchased to help speed sales of the Mills' "Constellation" phonos.

This beautiful, new four passenger cabin ship, which Nat reports, can handle six people for eating and sleeping accommodations in an emergency, is now scooting thruout the Long Island Sound area with music coinmen who want to talk all about the new Mills Constellation phono and, at the same time, don't want to be all covered with perspiration, due to the humidity in this town.

Nat also stated. "While we're out there we do some swimming and fishing and a little nip now and then doesn't hurt. At the same time we all have a lot of fun and the good ship 'Constellation' keeps punching away sales for the Mills 40 selection phono at even a greater speed than what it can make skimming over the sound."

Nat also says that he is arranging for docking facilities right down on 57th Street and the Hudson River and will be just walking distance from his office so that as the music ops are invited they can all meet at Modern Music Sales and go right on from there for a "day of really swell pleasure", as Nat likes to term it.

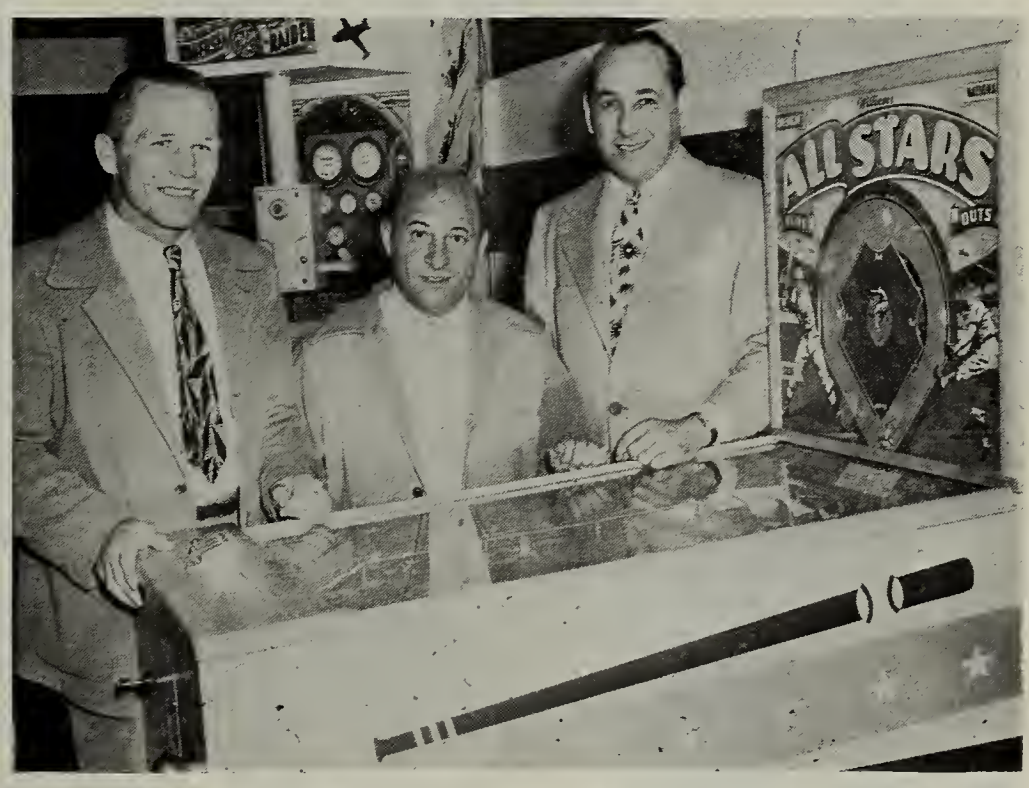
Zale Relaxes Training With "All Stars"



CHICAGO — Tony Zale, middleweight champ; Art Winch, his manager, and Al Stern of World Wide Distributors, this city, group around as Zale relaxes from training for his fight with Rocky Graziano at the Chicago Stadium, July 16, by playing the Williams' "All Star" baseball game.

Al Stern reports that he is going to present Zale with one of the firm's pinball games the night of the fight at the Stadium. This is one fight that has attracted a great many of coindom's sports fans and many will be present at the ringside.

Stern, in discussing Zale, who is a long time friend, stated, "In the ring he puts up a real scrap, but once outside the ring, he is shy, quiet and unassuming."

Both Tony Zale and Art Winch were reported thrilled with Al Stern's offer of a pinball game the night of the fight. Both men relax playing pinball and are eagerly looking forward to receiving it — with Zale still remaining the champ.

TELECOIN'S N. Y. SHOW DRAWS BIG CROWDS

Ops Flock to Commodore Hotel July 8-9-10 to See Six New Products

NEW YORK—The three days showing of Telecoin Corp. six new products at the Commodore Hotel (South Room) on July 8, 9 and 10 went over with a bang. Ops from all over the east were present to see the new "Quizzer" game; Tele-Juice canned fruit juice vender; a new laundry extractor which cuts down washing and drying time to absolute minimum; a new soap and bleach vender; laundry ironer; the "Photo Finish" game and the Bendix washing machine.

Ops were very much impressed with the quality workmanship and the very modernly designed equipment. Success of the showing was manifested in the number of orders taken. The "Tele-coin Caravan" as the firm call it will now move on to the Hotel Carter, Cleveland for a July 14 and 15 showing; to the Hotel Stevens in Chicago for July 17 and 18; to the Hotel Adolphus in Dallas for July 23, 24 and 25 and to the Hotel Henry Grady in Atlanta for July 29 and 30.

The top picture gives some idea of the crowds attending the showing. In the lower picture (top) Irving Robey, left, punches the right answer on the Quizzer while Bernard Brecher of Brooklyn and J. C. Mellon of Consolidated Laundries, New York look on. Middle picture shows Stanford Goldwater, N. Y. op and Charles Lamb of Portchester engrossed in a demonstration of the Tele-Juice dispenser. Bottom pic shows John Daniel of Poughkeepsie and Marvin Duke of N.Y.C. enjoying Joe Lombard's demonstration of the new 10c operated Telecoin Extractor, the tumble dryer that does the whole job in six minutes.

Among those who registered the first day of the showing were: Moe Lubin, A. Stevenson, Chas. Sernecker, W. G. Rogers, E. Oakland, S. I. Ramsdell, Morris Weil, Walter H. Mann, Harry Berwald, Phil Goldstein, George Berger, Ed Bloomberg, Louis H. Bromley, Ed Spilde, H. S. Rosen, Fred Glade, Herb Schraga, Joe Daks, Ed Rothenberg, James McGiff, R. R. Sewell, S. I. Handler, C. Lamm. C. F. Del Plain, J. A. McPhaul, Louis I. Fried, Bernard Brecher, C. J. Darsz, F. L. Magnus, Joe Miller, Herb Ehrlich, J. E. Mellon, Stanford Goldwater, P. B. Abrams, Phil Sine, Oscar Gehn, Nat Kushman, G. E.

WHITEHEAD MUSIC COMPANY

JEWEL BOX BLDG., WILMINGTON, NORTH CAROLINA : (DIAL 9625)

Golumbo Named Rock-Ola Conn. Dist.

BOSTON, MASS.—J. J. (Jerry) Golumbo of this city, Rock-Ola distribs in this territory has just been granted the state of Connecticut by the Rock-Ola Mfg. Corp. in addition to his present territory.

Golumbo also reports that the United States Vending Corp. of Chicago have also awarded the state of Connecticut to him for distribution of their new vending machine which has won much comment from the trade.

Golumbo reports, "We will serve the music and vending machine operators thruout the state of Connecticut, as we did at one time in the past, with the very finest in sales and service representation and", he continued, "as the operators know we are always there with the closest cooperation to aid them to grow bigger and healthier from every standpoint."

Golumbo is making it his personal business to visit with the Connecticut ops and tell them all about the firm's plans for the cloest coverage ever enjoyed by the music and vending operators. He said, "We have some new and unique plans and we feel sure that when the operators hear about them they are going to really be happy."

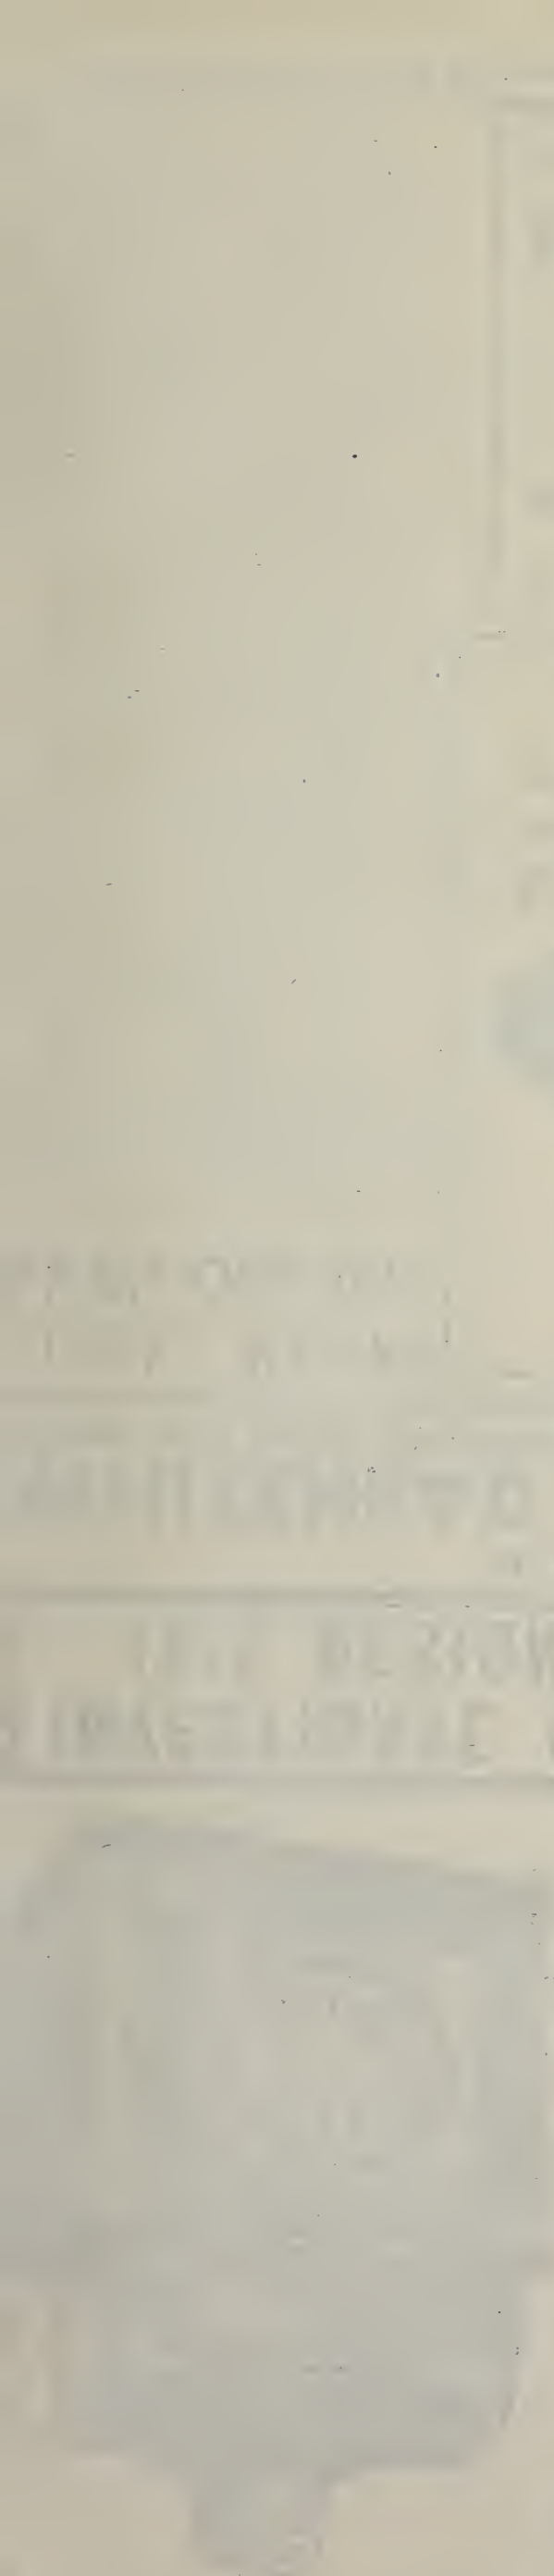
ADAMS - FAIRFAX CORPORATION

5721 W. JEFFERSON BLVD., LOS ANGELES 16, CALIF.



COLUMNIST ADVISES TRADE ON PINBALLS

DENVER, COLO.—Earl N. Pomeroy, well known columnist of the Denver Post, this city, took time out on June 25 to devote his entire column, "This Brave New World", to the pinball business. The many fine suggestions, and the generally favorable comment, are sure to prove exceptionally interesting reading to the trade.

"Recently there have been some slight rumblings along the grapevine to the effect that, in due course, **pinball machines** will turn up in Denver's thirst parlors and that the coppers will view them solely as devices for furnishing amusement and teaching manual skill. Should this happen, the pinball industry probably will make some of the same mistakes of which it has been guilty in the past. For one thing, the operators may be trundling in machines which, on their backboards, bear pictures of racing nags in the quarter stretch, the Indianapolis speedway in full roar, poker hands, etc.

"Now such decor, regardless of what merits it may have as art, can be suggestive. One can derive from it the implication that the machine could be used as a gambling device.

"And, oh, my! It's things like that which impel duly constituted authority to take action on suspicion.

Old-Fashioned Fun?

"In the main, Denver's councilmen never have been quite convinced that the devices were designed just for innocent, old-fashioned fun. Moreover, that august body, the Colorado supreme court, sensed some gaming potentialities in the things. In a decision issued in 1936, the jurists declared that the machines should be verboten in the state, because:

"Our attention is called to the allegation that the machines, by their plan and construction, pay nothing, but this is no criterion. They may still be used or kept for purposes of gambling, with the connivance and knowledge, and to the profit of their owners."

"Those pictures of racing bangtails may have had part in influencing this decision.

"The industry could learn something from what has been going on at Hunter College in New York state.

"Aids Education"

"From that institution has come solemn pronouncement that the students have been advancing their education through use of the pinball machines. The details are not in, but we do know that the machines were some taken out of brew parlors and turned over to the school where, after some adjustments, they were set to teaching chemistry — specifically, the molecular construction of chemical compounds.

"Presumably, those wire or toadstool eruptions on the plane surfaces of the machines have been redesigned to symbolize the various atomic elements. Suppose that a student, avid in quest of learning, can get one of the metal balls to twice bump the knob marked H (for hydrogen), once against that designated S (as in sulphur), and four times against that labeled O (as in oxygen).

"It could be then that the back end of the machine lights up like Christmas to proclaim that the learner has just found the combination for making a dose of sulphuric acid.

"After he has located the formulae for the simple combinations, the student could work up to trinitrotoluene on the machines, and then be graduated summa cum laude after he has sent a metal globule bumping against sufficient pegs to light up the panel marked sodium-tetraiodophenolphthalein.

"Why, an amusement arcade could be transmuted into a university. Hungry for the higher learning, a stumblebum could go into Grogan's Elite, where the neon sign would proclaim 'Beer, Eats and Physics," and for 15 cents he could get a seidel of suds and an introduction to Bernoulli's principle—or possibly that of the Mickey Finn.

"The day yet may come when pictures, not of racing nags, but nuclear fission, will grace the pinball machines, and thereby dispel the motion that the devices were intended for gambling."

Changes Name of Rolldown Game

JACK SEMEL

HOBOKEN, N. J. — Jack Semel, president of Esso Manufacturing Corp., this city, announced this past week that, after a conference with some of the firm's leading distribs, they had changed the name of their new rolldown game from "Esso Award" to "Esso Star".

"We believe," Semel reported, "that the ops thruout the country will agree with us that this is a better name for a game today. The word 'Award' met with disapproval of many of our distributors who are located in territories where such a word might be completely misconstrued. We have, therefore, arranged for a change of name on our first rolldown game and", he continued, "we believe that it will meet with the approval of the majority of coin machine men thruout the nation."

Semel also reported that production was getting well under way and that already, "many who have had their first glimpse of 'Esso Star' have already placed orders for large quantities of this rolldown game".

Jack Rubin, secretary of the firm, reports, "We have tested this rolldown game on various types of locations and in each instance it has outpulled and outearned any other machine which ever appeared on the location. The storekeepers were absolutely wild over it and we had plenty of trouble removing it, even after we advised them that this was just for test purposes. We're building this game from our many years of operating experience and we can assure every buyer that he is getting something an operator wants and needs today to earn him real profits."

Named Attorney for SCAMOA

WILLIAM LARSON

LOS ANGELES, CALIF. — E. Jay Bullock, managing director for SCAMOA (Southern California Music Operators Association) announced this past week the appointment of William Larson, well known attorney of this city, as the legal counsellor for this organization.

Attorney Larson has figured prominently in legal work thruout this area. He has won many noted cases in local courts. It is also reported that he is extremely well acquainted with the entire coin machine field, and especially with the coin machine business in this section.

Bullock stated, "We are indeed proud to be able to announce that William Larson has accepted the post as legal counsellor for our organization. Everyone of the members has complete confidense in him and all agree that this will help immeasurably to advance the organization."

Bullock also reported that this was in keeping with the promise made the members of SCAMOA that "everything possible will be done to help the organization to grow and to advance securely thruout the Southern California area."

Empire Has Big Special

CHICAGO—Gil Kitt of Empire Coin Machine Exchange, this city, reported this past week that the firm have a "Very big special for every vending machine operator which will prove of tremendous interest and which has already been proven one of the greatest moneymakers on every location."

Tho Kitt wouldn't give further information he did state. "Just have the operators contact us immediately while these last. We are sure that they'll be plenty happy that they did so."

Berke, Emanuel Bettino, Robert Pohl, and many, many others as registration went on for the next two days.

DEPARTMENT OF AGRICULTURE

THRU THE COIN CHUTE

CHICAGO CHATTER

Well, thank goodness, it's over. The big all-star game comes only once a year and this time it hit the Windy City right in the solar plexus. Here we were bursting at the seams, as the expression goes, with the furniture convention and other, smaller conventions in town, and along comes the championship National and American Leagues game. Well, we don't know where they put 'em but, somehow, somebody was able to accommodate someone and, when it was all over the American League had once again walked away with the honors. They did it last year, too, if you remember — 12 to 0. Plenty out of town coinmen out there at Wrigley Field watching the action and, they tell me, a few boys put a few pennies on the game, too. Wonder how some of the boys who were so sure feel today? Oh, well, it's come and gone so let's get back to business.

More visiting coinmen enjoyed a bit of a breather this past week with some of the larger factories closed for the two weeks' vacation periods. As stated before, most of the large manufacturers are simply closing down their plants for two weeks at a stretch, instead of the old stagger system which kept them handicapped all during the summer months . . . Happiest expressions of the week were those of the ops around town who advised that there was a very noticeable increase in their take, regardless of the hot weather. New products, warmer weather and aggressive selling have all been very important factors in the upswing of coin machine business thruout the Chi area. From every source the reports are very optimistic which indicates, that without any doubt, the coin machine industry is on the way for one of its most successful summer seasons.

Saw Al Stern and Mrs. Stern having dinner at the Russian Yar with Mr. and Mrs. Ben Axelrod of St. Louis . . . Also bumped right into Larry Frankel of Rock Island, Ill. and other points around the midwest, with Al Meierowitz. Boh Bleekman and some of the others, having a drink or two at one of the local niteries. Les Levison was along and, they tell me, he's going to handle the Packard line here in the Illinois area . . . Leo Lewis of Coin-A-Matic welcomes some out of town guests as we pop into his place of business this past week. Among them were: "Fitz" Fitzgerald of Co-Operative Distributing Co., Louisville, Ky. and Ross Lewis of Peoria, Ill. Leo also tells me that he had quite a crowd over at his house this past week to help celebrate his son's birthday. And said son making quite a haul of presents, according to what I gather.

Nate Feinstein took his wife Eva home from the Hospital this past week and reports that she is rapidly recovering. Seems like all the Ginsburgs are having their session with local surgeons all at one and the same time. Eddie Ginsberg went back to the hospital for a further check-up — just to make sure . . . Gil Kitt, after many tries, at last had the chance to sneak away for a little vacation over the Fourth and is all full of pep and hitting harder than ever before. Ralph Sheffield also took a few days off and returned to the office with a lopsided sunburn. Seems that Ralph took a long drive and exposed his left arm to the sun a bit too much. Howard Freer also had a vacation from which he has just returned and is doing nothing but raving about the gorgeous Oregon country. And, Howie, that's one place you can rave about.

Dave Gottlieb leaves far a vacation with his family at his summer home in Eagle River, Wis. Dave is going to just take it easy for a while and try to forget that down here in Chi at his beautiful factory they are enlarging the ramp just to take care of the orders which roll down it daily . . . Johnny Chrest over at Exhibit tells me that they are soon going to announce a new game with plenty of different features which will make many of the coinmen's eyes pop when they see it . . . Bumped into a bunch of guys over at Bell-O-Matic this past week including Fred Davis of Newcastle, Ind., Harry Hilliard of Central Service Sales, Kokomo, Ind. and Ray Lange of Lebac, Calif. . . . Things are certainly humming over at J. H. Keeney & Co. with Bill Ryan constantly on the phone telling their many good distribs why they can't ship as many "Hot Tips" and "Carousels" as these distribs would like to receive.

Al Stern of World Wide Distribs and Jim Mangan, CMI's Public Relations Bureau director, talking all about building up good will of the public toward the coinbiz. It certainly was a most interesting discussion with Jim very much surprised at how much the coinmen know about this sort of thing. If you want all the details, which would take too, too much space here, suggest you contact Al Stern and let him tell you all about it . . . Walked in on Bert Davidson over at Filben and found him busy taking pictures of the Filben line. Bert tells me that the results of their Milwaukee showing are just making themselves felt and that there will be two more showings this month, one in Pittsburgh and the other in Minneapolis . . . Ben Lutske tells me that Daval will start production next week on their "Postmaster" machine.

. . . Mike Spagnola of Automatic Distrib. Co. is sure having his troubles. With his secretary out sick, Mike has had to use the "hunt and peck" system on his typewriter to get his mail out and, at the rate he's going, it takes about 8 hours to complete one letter . . . Ed Levin over at Chicago Coin simply biting his nails down to the third knuckle bone while all the employees are off on their vacation. Ed does hope, tho, that they'll come back all full of pep and vinegar and be able to whittle down that growing backlog of orders which he now has and which seems to grow greater hourly. They're sure selling them over at this Chicago Coin plant.

Even tho they were operating with only a skeleton crew over at Williams Mfg. Co. between Tony Gasparro, Harry Williams, Skeet Moore and some of the other execs, they were able to help out some of their distribs who are desperate for more and still more of those Williams' games . . . Vince Connors who underwent an operation recently (he's from Amusematic Corp.) is now resting well at his home and expects to be back in his office just about the time you'll be reading this . . . Lindy Force of AMI has no place to hang his hat these days. They closed up their old sales offices on Wells St. and as yet haven't opened their new place at 127 North Dearborn . . . Gordon Sutton played host this past week to Mr. and Mrs. Mike Hammergren who visited with the Suttons at their new home in Wilmette. Gordon reports that he has little time to relax these days as the demand for phonos and especially for that new DeLuxe Simplex Phono Needle is keeping him jumping.

Ben Coven, who is one of the clickingest distribs in this man's town, selling 'em high, wide and handsome, was stricken with a touch of arthritis this past week. But, after a few days in the sun at his summer home in Lake Geneva, Ben came back to the office feeling grand and going stronger than ever. And, while Ben was gone, "Bally" Sally Goldstein, Ben's secretary, was stricken with a slight cold and had to stay home for a few days. While over at Coven's I bumped into Harry Halberstadt of Racine, Wis., George Gessert and Wally Merillo, the Packard boys from Milwaukee, Wis. . . . Dave Lovitz of O. D. Jennings & Co. tells me that "O. D." left for a visit down on his Vicksburg, Miss. plantation. While talking with Dave in walked Ray Bolmer of Elkhart, Ind. and we got around to learning that not all the ops are crying these days . . . Gene Bates was busy as usual with some of the boys who came a long way to see him so didn't have a chance to visit and talk with Gene this past week.

Dave LaRue tells me that his Personal Music deal here in Chi is going great guns and hopes that it will keep on going just the way that it has. It seems that will be plenty satisfactory to Dave . . . Harry Salat and Al Sebring of Bell Products very happy with the sudden biz boom they enjoyed this past week . . . Plenty of Chi's leading music coinmen over at that big Packard showing this past week. Saw and talked with Howard (Curley) Pretzel, Ed Ratajack, both of CMAC, Ray Cunliffe of the Ill. Phono. Owners Assn., and so many, many others who were present . . . Ben Siegel of P & S who tells me that the firm are still enjoying orders for their "Shooting Stars" machine. Also advises that P & S will soon have a new surprise for the trade . . . Clayton Nemeroff was sure busy this week. Caught him one afternoon in conversation with Si Case of Kankakee, Bob McLean of Kenosha, Tom Dorociak of Foreston, Ill. and some others.

Bill Perry of Marvel reports that he is being visited by more and still more coinmen each and every day. Bill has something up his sleeve which he'll pop with very shortly . . . Art Weinand rushed off to Cleveland to be present at the Windsor Phono. Co. party and came back all happy over the fact that so many of the Ohio music ops had found out that "Rock-Ola really sells music" . . . Bernie Grunig reports that his "Test Quest" machine is going out in good quantity each and every day . . . Jack Nelson, Jr. is "boss" over at his place with Jack Nelson, Sr. still in California . . . There's some talk around here once again that New York may be the place to be this coming September for some of the pinball guys think that things will happen there during that month.

THRU THE COIN CHUTE

EASTERN FLASHES

First time in a long time that I took a stroll along the "Wailing Wall' which is what the boys are now calling New York's Coinrow (Tenth Avenue) and found that, tho there's plenty of wailing here and there, in general the boys are feeling a lot better and almost every spot along the street is jammed with roll downs and they're selling them at pretty good prices, too. The boys who are putting them out claim that the collections are "very good". But, here again, New York's ops just won't listen to reason and are placing the games at 50%-50% when they should be putting them out at 75%-25% to insure themselves for tomorrow.

* * * *

Bumped into Joe Hisrch who tells me that he expects some action around September 11 on the pinball case. Tells me that attorney Markewich will handle the details but that the old trial horse, Atty. Benjamin H. Haskell, who was N. Y. attorney for the amusement association of the old days, will do the actual talking in the court room. Joe believes that their chances to get novelty type pinballs going here are very, very good. (Of course, the trade realizes that these games will be without meters, without free play units, buttons, etc. They will be completely and strictly novelty. A long time ago the plan was to have them shipped into New Jersey first and have all these units removed and stored over there. Then when the op traded in the game, it would be moved over to the Jersey side once again and the units replaced so that it could be sold thruout the rest of the country as a "used free play machine". The boys are all satisfied with straight novelty games and believe that they can "earn a living" operating them here.)

* * * *

Brother, one gal I admire is Bess Berman. There's a "granmother" who looks like a young chicken and puts in plenty of hours work. She has won the respect and confidence of everyone of the coin guys. Even when trouble struck the Apollo Records plant and a water main burst which shut down production for a few days, and having one of the hottest records on hand, Bess stood firm, sharing the records among the music ops on an equal basis so that all were completely satisfied. (But, as always, Bess buzzes your ears off with those gorgeous grandchildren of hers. The trouble is they are gorgeous) . . . Talk about father and son combinations—Dave Stern was on the phone in his office and his son, Irwin, who's out of the U. S. Navy and one of those tall, slim, nice looking boys, too, selling away at a customer who dropped into the place to "just look things over". And from what I can gather, it won't be long before Irwin will be taking over from the "old man" very soon.

* * * *

Hymie Rosenberg had his eye all bandaged up this past week and was seen standing out in front of his place looking at this dreary, humid, hot, rainy weather—with but one good eye. (Hymie, there wasn't too much to see) . . . George Ponser seen scooting over to Brooklyn to talk things over with Irv Kaye out there and, on his return, advises, "We've got a real hit coming out soon". Then dashes madly for LaGuardia Airport where he hops a plane for Chi. Seems like George has become a regular Chicago commuter of late. Wonder what's up? . . . Al Bloom of Speedway Products doing a very grand job with his merchandise and now claims that competition has come into the field with an inferior product taking advantage of the good work he's done. This sure is unfair and tho Al can't get around to tell everyone about it—the boys who read it here should first check with him before buying . . . Saw a wire recorder machine over at Mike Munves' place which is unique in the fact that it makes a recording of your voice, plays it back, but doesn't give the wire to the player. By the way, Mike's making a television machine in his place. We looked it over as well as we could but, it seems to us, Mike's holding out. If he's going to coin operate this classy console unit he should also add in a juke box mechanism and he'll have a dual action machine which is bound to attract attention. Maybe he's doing just that anyway. Mike won't talk.

* * * *

"Grandpa" Jack Mitnick is one of the long distance phone guys of the industry. This past week they had "MacNic" doing nothing but answering long distance phone calls and the way that boy convinces 'em over those long distance wires is something to listen to. I'm beginning to believe that Jack simply loves to work hard. He thrives on it. And there's just the intimation of a little bit of a paunch beginning to be noticeable on "Gran'pa" . . . Ben Becker's got a nice cool office. His secretary was relaxing on one of the couches while Ben was pecking away at the typewriter with the one-finger-hunt-and-peck system. Says Ben, "I'm writing a letter to my wife". Further commenting, "And, what's more, I've got my finger worn down to the third knuckle already". Ben tells me that when Art Garvy of Bally was touring thru New England he called on Ed Ravreby and was invited into a game of "gin". They told Art that "gin" was just like "knock rummy" and all he had to do was "knock" when the right time came, but this rummy was played with 10 cards. Anyway, when the session was over, Ravreby turned around and handed Garvey $174. Big as Art is—he almost fell off his chair. He didn't know that he had been playing for money all that time . . . I get a kick out of Gloria Friedman at Runyon Sales. There's a gal who knows how to "sell" a record. And she sells plenty of 'em, too. Gloria's got that knack of keeping her pep and youth and vitality going every second—even with the heat and humidity almost unbearable.

* * * *

One Brooklyn music op tells me that he's now getting some dirty competiton. Seems that he's been working on $20 front money and getting it, and now someone is placing new machines and asking only $15 front service money which, of course knocks hell out of his operation for his location owners are howling. Can't these guys ever stick together? . . . Dick Herman of Emerson Radio is getting ready to pop with a coin operated radio set and is looking for distribs. He's surveying the field now . . . Milty Green of American Vending is in town. Says Milty, "I like Florida for about four months a year. But, it's too hot in the summer. What's more my home is on Manhattan Beach and it's cool here." Milty spends his winters in Florida and his summer at Manhattan Beach. Which ain't bad at all . . . Bill (Dirty Legs) Alberg tells me that he has just added two cows to his Long Island "plantation". Now he can't raise as many vegetables as he used to for he must have pasture land and cut hay for the winter. That's high class farming. Charley Aronson is back on the job once again after his four week's vacation down in Florida, Charley's howling he isn't geeting enough of those new '47 Ten Strikes to meet the demand.

* * * *

Nat Cohn bought himself one of those new Higgins speedboats and is cruising his time away over the weekends and sometimes during the week, too. He named it "Gallant Queenie". And there's a story back of this name. Take "Gallant" for instance, the initials for this word are all the Cohn menage. "Ga" is for son Gary, "L" is for daughter Lynn, the next "l" is for wife Lilyan, (the "a" is just left in there) "n" is for Nat and the "t" is for son Teddy. The word "Queenie" comes from Nat's nickname for his wife Lilyan whom he calls "Queenie". So there you are "Gallant Queenie". (Whew—never thought I'd get it all straight) . . . Big affair of the week was the Telecoin Corp. show at the Commodore Hotel, South Room. Never before met so many coinmen interested in entering into the automatic laundry field and in the big drink dispenser biz. The "Tele-Juice" Machine which they showed clicked with many an op. This machine refrigerates popular fruit juices in small size cans at 10c per can. Operation is very simple. Capacity is good. Looks like this unit can get lots of action on the proper location. Their "extractor" machine which does a washing and drying in only six minutes got lots of attention, too. Many coinmen believe this is a natural for apt. houses. And, of course, all came to see the new "Quizzer" game which attracted much attention. By the way here's something of interest. Executives of Telecoin report that they collected a total of $41.20 from the 'Quizzer" after the three day showing was over. This money was donated to the Damon Runyon Memorial Fund for Cancer Research. Practically everyone of the 824 nickels was put into the machine by visiting ops. The show was open 14 hours per day, or a total of 42 hours. That means that the "Quizzer" averaged $13.75 per day.

* * * *

By the way Lou Wolcher of Advance Automatic Sales Co., San Francisco, popped in and out of town this past week. Lou's an old time New York boy who "went west and made pahlenty good out there". It may be interesting to remember that he went west with Advance peanut machines (that's how come his present firm name) in the days when the late Hymie Budin and his Dad were roasting them for the trade in their store on Dumont Ave.. Brooklyn, and then would service their route with a horse and wagon. And when old timers like Jack Fitzgibbons used to scoot from N.Y.C. to Connecticut where Jack ran a route of Baby Mutoscopes. Jack did this every day in the week. So, old timer Wolcher came back to see if the streets were still here and how the boys were doing.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

The Southern California Music Ops Association held an open meeting here this last week at the Larson and Thayer Hall. Approximately 50 operators attended as well as several record representatives. E. Jay Bullock, the association's managing director presided over the meeting and pointed out the many advantages of membership in his organization, and in addition pointed out the need for a better operating commission. The association plans on a contest for all operators, with a prize of $25.00 for the best letter written by an operator, for presentation to location owners on the subject of better commissions. Bullock praised *The Cash Box* for its terrific effort in stirring up the necessary interest and enthusiasm in the fight against the Scott-Fellows Bill. Lee Palmer of Capitol Records; Jerry Gould, of Black and White Records; Al Solomon of Ohio Records and Howard Krause of Enterprise Records appeared and gave short talks on behalf of their respective firms and also made some very helpful suggestions for the operators benefit. William Larson was introduced as the association's Attorney.

Just heard that Preston Jarrell formerly of Coinmatic distributors has suffered a stroke and is very ill . . . Fred Gaunt of General Music tells us that his firm has been appointed exclusive distributors for the new Western Pokerino . . . Carl Honeyman of Oakland, manufacturer of a new shoe shine machine, in town planning on appointing distributors for the firm's machines . . . Nels Nelson has been taking some nice orders for the new "Strikes 'N Spares". Nels tells us that he has sold and delivered quite a number of the games . . . Ray Powers of E. T. Mape off to Bakersfield to visit with a number of the ops in that territory. Len Baskfield in town for a few days to confer with Ray Powers . . . Paul Laymon has added a new member to his staff, his brother-in-law, Charles Daniels. Paul has been moving many of the new Bally five ball game "Ballyhoo". The ops' reaction to the game has been wonderful Paul tells me . . . C. F. Cooper, and Dale Cooper of Riverside, as well as John Mallett of Claremont and Irving Marley of Glendale trying out the new five ball at Paul Laymon's.

Bill Wolf of M. S. Wolf Distributing Company sure takes top honors for doing the most traveling. Bill, just back from Seattle has taken to the road again for another trip calling on ops in the vicinity of El Centro. Bill is having his switchboard removed and the phone company inadvertently cut his line off, which resulted in many callers getting the info that the line was disconnected. The error has been corrected and all is quiet again along coin row . . . Dropped around to chat with Bill Happel, Jr. of Badger Sales, and listened to Bill sell three "Strikes 'N Spares" to Fred Casey, veteran op just back from Johannesburg, South Africa. Casey placed an order for a large amount of the new Bowling games and will take delivery as soon as the games become available . . . Allite Manufacturing Company, manufacturers of the "Strikes 'N Spares" have been hard pressed to keep up with the unprecedented demand for their game according to Bill Schrader, president. Production facilities are being stepped up which will result in a greater turnout. Bill tells me that he is overwhelmed by the wonderful reception the game is receiving from all points of the country.

Over at the Adams-Fairfax Corporation, Bernie Shapiro tells me that more and more coin ops are entering the vending field according to reports received from their distribs, and the many requests for info being received from ops from all parts of the country. Al Silberman is down in Texas calling on several of the distribs there and plans on being in Missouri and other points this week. Al writes in to say that the firm's 5c Cash Tray is being received with open arms by vending ops everywhere he goes.

Its been plenty hot here this past week with many of the ops taking in cool beaches and golf courses to get away from the heat. However, some of the boys were seen rushing in out of the sun shopping along coin row this past week. They included: Claude Sharpensteen, Jr., Yuma, Arizona; Joe Saares, Tulare; Peter Dervivanis, Fresno; D. D. Brymer, Palos Verdes; Lester Wooky, Bell; Barney Smith, Long Beach; Fred Casey, North Hollywood; E. S. Simmons, Paso Robles; Niles Smith, Oildale; R. F. Gallagher, Santa Ana; Morris Benado, North Hollywood; Bernard Koch, Balboa; R. G. Patterson, Corona; Lee Wirt, Montebello; Fred Allen, Bakersfield; Mac Sanders, Los Angeles; Bruce Frazier, Los Angeles.

M. E. Thiede, one of the old time coin men, having spent the past 20 years in the coin biz, has joined Badger Sales, specializing in the sale of the new "Strikes 'N Spares" . . . Aubrey Stemler has entered the vending biz in a big way. Aubrey was recently appointed as international distributor for the Kayem Products Company, manufacturers of chewing gum and VitO-min vending machines. Was very interested to learn that the gorgeous movie actress and singing star, Ilona Massey is an active member of the Kayem firm . . . William (Bill) Williams of the Williams Distributing Company, is awaiting word about the new "All Stars" game he is distributing. It's a great game and has a multiple coin chute for nickel, dime or quarter play, which not only stimulates repeated play but according to word from test locations, has resulted in phenomenal collections. The quarter play was unusually heavy.

Jack Gutshall has been doing very nicely with his record business. Jack handles a nice line of independent labels sells quite a number of records across the counter. Jack tells me that the sale of Packard phonos has been going along very well. He has been doing a lot of calling on music ops in the county and spreading the gospel about replacing old worn out equipment with new Packards to better their collections . . . Len Micon of Pacific Coast Distributors has been looking over several vending lines . . . Ken Bevins of Commercial Coin Radio has his organization now going at full speed and is ready to fill orders in any amount. The firm has perfected a new inter-com system which can be quickly installed in any of their radio sets . . . Charlie Fulcher of Mills Sales informs me that the deliveries of the new Mills Phonos was a bit slow up to this point, but that he has received word from the home office that sizeable shipments are on the way. Charlie has been very active and has made a lot of friends in the short time he has been here . . . Spent a little time reminiscing with "Hum" Brokamp of Pantages wired music this past week. Talked over old times during the last war and the present conditions in the coin biz. Brokamp believes that good times in the coin field are once again just around the corner. The firm is currently manufacturing mirror cabinets for conversions and Pantages wired music units.

Dropped in to see Robert Gordon of Van Es Record Company who informs me that his firm has Barclay Allen on exclusive contract and that a number of new hit records are soon to be released. Gordon advises that new distributors just appointed include Schwartz Brothers of Washington, D. C., and Vita Record Distributing Company of Los Angeles . . . Leon Rene of Exclusive Records very happy over the swell response to the new Jeffries recording of "When I Write My Song."

THRU THE COIN CHUTE

MINNEAPOLIS

Carl Andrejeski of Chippewa Falls, Wisconsin in town for just the day . . . L. I. Harris of Enderlin, North Dakota in Minneapolis for several days sort of vacationing and taking it easy.

Harry Partridge of Mora, Minnesota was in a plane crash two weeks ago, and was severely injured. Harry happens to be a very good flier and was flying a brand new plane from La Seur, Minnesota when he suddenly fainted as he was coming into the Airport. That's all he rembers until he awoke in the hospital.

Mr. and Mrs. Oscar Sundeen of Montevideo, Minnesota in Minneapolis for several days buying and making a few Night Clubs . . . Mr. and Mrs. Roger Chester of Bismarck, North Dakota were in Minneapolis last week for a few days . . . Lawrence Sieg of Augusta, Wisconsin in Minneapolis just for the day visiting a few distributors . . . Joe Topic and Phil Stang of the Scott Novelty Co., Shakopee, Minnesota covered an awful lot of territory in two weeks by driving to the West Coast which included California to Oregon and back through Utah to the Twin Cities . . . Con Kaluza of Browerville, Minnesota in Minneapolis just for the day on business.

Art Hawk of Yankton, South Dakota stopped off in Minneapolis after completing a three weeks automobile trip to New York City and on the way back, he drove through Ottawa, Canada, and really had an enjoyable time. Art's wife, mother and father accompanied him on this three weeks trip . . . Henry Greenstein of the HY-G Music Company is enjoying a nice ten day trip to Lake Louise . . . Al Peterka of Benson, Minnesota in town for just a day calling on distributors . . . Art Johnson of Glenwood, Minnesota since selling out his complete route has gone into the Cement Block Business and doing a pretty good job of it. Art still has 400 Peanut Machines out on the territory and plans on keeping them as additional income . . . Andy O'Brien of Benson, Minnesota was in town for just the day . . . Solly W. Rose of Hy-G Music Co. spent the three-day Fourth of July vacation at Duluth, Minnesota to cool off . . . Paul Fellings of Sauk Center, Minnesota had tragedy strike at his home. Three weeks ago his son was struck by a truck and it looked as if he might recover, however, his son passed away this past week, and all the distributors and operators who know Paul offer their sincere condolences.

ST. LOUIS

By BERT R. MERRILL

"It never rains but it pours" has an extra meaning in the St. Louis coin machine circle these days—as flood waters piling up to an all time record over the past 103 years caused hasty removal of pinballs and phonographs from many locations thought high and dry. Bill Butcher over at East St. Louis gave up two night's sleep and a week's collections to hustle his boxes out of river-street locations. Some of them were two feet under water by the time Bill could get to them. Carl Hoffman drove casually to inspect one location only to find it five feet under water! All along the Missouri and Mississippi ops were snatching equipment away from lapping flood waters.

Ideal Novelty Company was awarded a prize by Rockola this past week for the largest sales volume of new phonographs over quota of any distributorship in the country. "We're concentrating on sales of ten at a time" portly Carl Trippe announced. Among those who carted off ten were Ted Keyes of Farmington, Mo., and a batch of Illinois ops.

Olive Novelty Company is proving that it can get along without Ben Axelrod and Al Haneklau this week. Al took off with his family for the North woods 10 days ago, to stay all summer, while Ben Axelrod is in Chicago to take in the All-Star game and a few lake front breezes. Meanwhile the receptionist is running the works!

Visitors in to buy parts and new equipment after flood damage included E. Zitta, Curley Confer, Chuck Larcom, C. E. Houser.

V. P. Distributing Company is still up against a backlog of orders for Aireon equipment, including the Music Mirror, reports Del Veatch. Norwood Veatch is expanding his route into central Illinois rapidly, while brother Del is capitalizing on equipment sales to the Illinois gentry

---

Bad new for many in the music field was the report that Bill Salfen, record distributor who spent two years in German prison camps after piloting many bombing raids, has been medically discharged from National Guard and Reserve status, and will enter a St. Louis hospital. Good luck, Bill!

BALLY ENTRY

ONE-BALL AUTOMATIC MULTIPLE

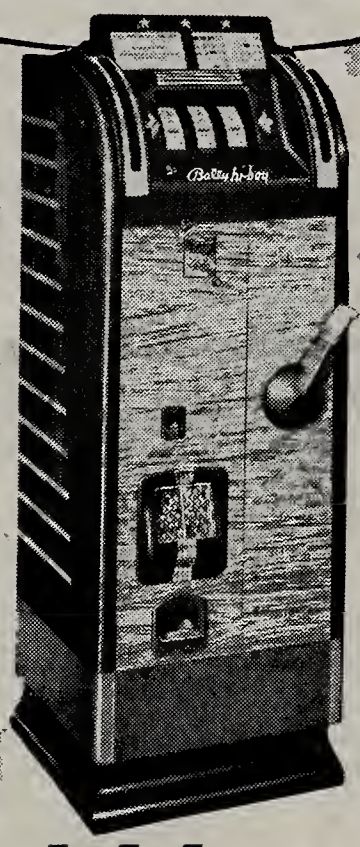
AND

SPECIAL ENTRY

ONE-BALL FREE PLAY MULTIPLE

New "Mystic Flash" feature magically transfers Win-section of play-field to top of board—to sections which normally score only Purse or Show. Players play, not merely two to four coins per game, but five, six, eight or ten . . . to catch the "Mystic Flash." Bally's new multiples can easily double or triple normal one-ball profits.

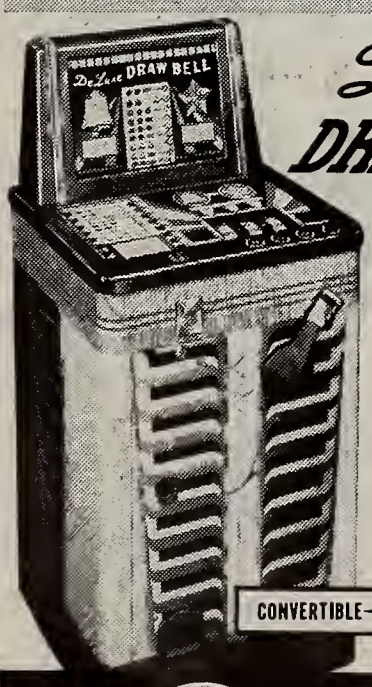
New BIG ODDS 3-TO-1 MINIMUM



HEAVY HITTER

Here's a game you can place by the dozens . . . by the hundreds. Sensationally low price permits you to cover locations you are now passing up. Small size wins a welcome in big-money spots which cannot use larger games. Baseball skill-play opens HEAVY HITTER to all territory. Simple mechanism insures lowest service cost. Fast action earns top profits. Order today.

OPERATE AS COUNTER GAME OR WITH FLOOR STAND



DeLuxe DRAW BELL

New luxurious console with EXTRA DRAW feature that permits players to deposit three, four, five coins per game. Equip your locations with the fastest profit-producer ever created in the bell-console class . . . order DE LUXE DRAW BELL now. Nickel or Quarter play.

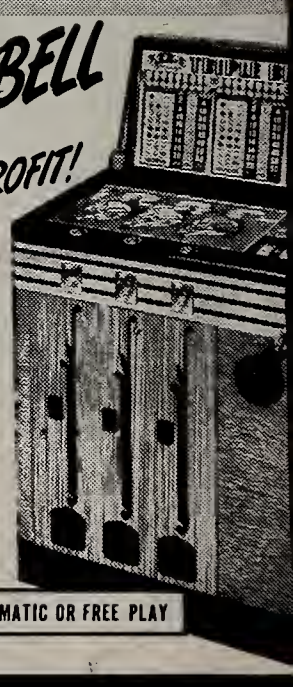
CONVERTIBLE—AUTOMATIC OR FREE PLAY

hi-boy

CLUB-TYPE CONSOLE BELL with

HOLD AND DRAW

DRAW new crowds of players and HOLD the play by the hour with Bally HI-BOY . . . the bell that easily earns double the revenue of old fashioned bells. Luxurious club-style console makes HI-BOY an ornament to the finest location. Simple, rugged mechanism insures years of trouble-free operation. Nickel, Dime or Quarter play. Order today.



TRIPLE BELL

TRIPLE PLAY! TRIPLE PROFIT!

Triple Coin Chutes permit three players —or three coins— every spin. 1000 *Super Special Awards*, plus many other big awards, and single cherry awards insure continuous repeat play. Deluxe cabinet. Trouble proof mechanism. Any coin-combination —Nickel, Dime, Quarter.

CONVERTIBLE—AUTOMATIC OR FREE PLAY
